VOL. XXXXV. OAKLAND, CALIFORNIA, WEDNESDAY EVENING, JUNE 29, 1898. NO. 177

SULLENLY THE SPANIARDS AWAIT THEIR DESTRUCTION.

SPANIARDS WILL FIGHT FURIOUSLY TO HOLD MANILA.

They Confidently Expect Aid From the Germans Under the Brother of the Kaiser.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

MADRID, June 29, 10 A. M.—Dispatches received from Manila today, under date of June 24th, say the Spaniards are determined to fight to the death and that there is every reason to believe that when the American troops arrive desperate fighting will occur on land and sea. It is supposed at Manilla that the German warships will prevent the bombardment of that place, and it is alleged that Prince Henry of Prussia is on his way there on board a warship.

The Spaniards are said to be actively pushing preparations for the defense of the city.

General Aguinaldo, the insurgent leader, declares that the members of the family of Captain August, who were prisoners in his hands, are at Panpanga, and are well treated.

AMERICAN WARSHIP CAPTURES SPANIARDS.

(Copyright 1898 by Associated Press.)

HAVANA, June 28 (delayed in transmission).—It is said at the palace of the Captain General here, the headquarters of the official news, that the American forces are finding difficulty in advancing upon Santiago. It is claimed that they followed the railroad track to Juragua from the mines situated a short distance from the coast, near Siboney and Aguidores, but were unable to reach the latter place in spite of the protection afforded by the fire of the warships.

The commander of the Spanish gunboat Ardilla reports that while reconnoitering on June 26th at Coloma, Punta Cortes and other places, at Cayaela he was informed that a strange steamer with one smokestack, apparently a warship of 3,000 tons, was in sight. The stranger soon came in sight of the Ardilla and pursued her. The gunboat kept within the blue sea, and succeeded in keeping out of range of the guns of the pursuer. To the southeast the stranger, which turned out to be an American warship, appeared to be in company with several other vessels.

The Ardilla made a reconnoisance the following day, June 27th, and discovered that the American ship had captured the sloops Nemesia of Batabano, Amistad and Manuel Ita of Coloma and the pilot boats Luz and Jacinto.

It is claimed that when the sloops were sighted the American ship hoisted the Spanish flag, which caused pilot Joaquin Fernandez of the Luz to hoist the Spanish flag, believing he was with a Spanish warship. The pilot also approached the American vessel, and did not find his mistake until a blank shot and a loaded shot was fired at the pilot boat. The shell, it is claimed, exploded near her.

The American ship by this time seemed to have driven the Spanish craft into a bunch, including the Luz, Jacinto Amistad, Nemesia and Manuel Ita. The latter, it is further alleged, let go their anchors and were abandoned by their crews, who made for the shore, going in the direction of Punta de Piedras, on the southwestern extremity of Pinar del Rio, between the Isle of Pines and the mainland. The commander of the Nemesia, with one of his crew, remained on board the sloop and was captured and taken on board the American ship. Later he was set at liberty, after having been questioned regarding the Spanish fleet and the general situation of affairs.

The American ship is described as carrying one gun forward and four guns on each side. She is said to have been commanded by a "frigate captain," and to have "carried about 600 men with blue pants and red fringe," who said they were going to Cuba and afterward to Key West.

SAMPSON MAKES A REPORT OF HIS OPERATIONS.

Honorable Mention For Some of His Men and Praise For the Courage of the Cubans.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

WASHINGTON, June 29.—The Navy Department today posted the following bulletin, giving a report from Admiral Sampson, under date of June 22, off Santiago:

"On the morning of the 16th the batteries at the entrance of Santiago were subjected to a severe bombardment by the fleet. The firing was deliberate and in general most excellent. The batteries were entirely silenced. On the 15th the Texas, the Marblehead and the Suwanee destroyed the fort at Guantanamo. On the 16th the Yankee engaged a Spanish gunboat off Cienfuegos. On the 17th Lieutenant Marlow, with two steam launches, one Under Cadet Powell and one Under Cadet Hart, made an examination of the Cabanas bay. The launches were subjected to a heavy and continued fire at short range, and were struck seventeen times, although no one was hurt. Lieutenant Harlow, in his report, particularly praises the conduct of Cadets Hart and Powell and Coxswains O'Donnell and Blom.

"On the 19th General Garcia and his staff visited the flagship, having arrived that morning at General Rabi's camp at Aceraderos. My impressions of General Garcia are of the most pleasant character. He is a large, handsome man, of most frank and engaging manner and of most soldierly appearance. The fleet has, with my directions, furnished arms, clothing and food to the Cuban forces, both east and west of Santiago. Much has been done in this direction at Guantanamo by Commander McCalla, who has been most energetic in rendering them all assistance possible. Great activity and courage has been shown by the Cubans at Guantanamo and Commander McCalla is most eulogistic in reference to their conduct.

"There are about 10,000 Cubans in this immediate vicinity. On the 17th the army transports arrived, and General Shafter and myself paid a visit to Generals Garcia and Rabi. The process of disembarkation was rendered difficult by heavy seas, the heaviest which we have had during the three weeks the fleet has been stationed here. By 3 o'clock in the afternoon, however, 4,000 men were ashore and the work was proceeding with great rapidity. The pier was not injured, and one of the steamers went alongside of it. The water supply was not injured. The Vesuvius has done almost nightly firing since she has been here, the explosion of shells producing very great effect."

SANTIAGO CAN BE TAKEN IN TWO DAYS

Shafter so Reports to General Miles and It Is Believed He Will Attack the City At Once.

WASHINGTON, June 29, 1:20 P. M.—General Shafter has just reported to General Miles that he can take Santiago in forty-eight hours, but indicates that the undertaking might involve considerable loss. He is fully aware of the approach of Spanish reinforcements, and it is believed here that he intends to take the town immediately, and that news of a battle might be expected any time.

LINES DRAWN CLOSER ABOUT THE SPANISH.

Rain Delays the Artillery, But the Roads Soon Dry and a Battle Is Expected Any Hour.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

AT THE FRONT ON THE RIO GUAMA, SECOND CROSSING, Tuesday, June 28, 4 P. M., PER THE ASSOCIATED PRESS DISPATCH BOAT DAUNTLESS, via Port Antonio, Jamaica, Wednesday, June 29, 7 A. M., and Kingston, Jamaica, 9:30 A. M.—The preparations for the general advance of the American troops on Santiago are being pushed steadily forward, and troops of all branches of the service are being hurried to the front. General Kent's division, consisting of the brigades of General Hawkins, Colonel Pearson and Colonel Worth, has joined General Lawton's division, and with the cavalry division of General Wheeler and four batteries of light artillery will now be strung out in the rear of General Lawton's division.

The front still rests on the second crossing of the Rio Guama, on the road to Santiago de Cuba, in the rear of the crest of Sevilla hills and a mile and a half back.

The brigade of General Bates, the Thirty-second Michigan Regiment and a battalion of the Thirty-fourth Michigan Regiment, which were landed yesterday by the auxiliary cruiser Yale, remain at Juragua or Siboney.

The delay in the general field movement is due to the inability to get subsistence stores to the front rapidly enough.

The advance, it is said, will not be ordered until every man has three day's rations in his knapsack. That, however, is impossible until the roads are in condition for the wagon trains. Pack trains can convey only one days' provisions in a day.

The men constructing these roads have the work almost completed, and this afternoon the first wagon train of four six-mule teams will go through. In two or three days more every man will have three days' rations in his knapsack, and as soon as that occurs the army will move on the enemy. Although the Cubans affect to have thorough knowledge of the country and the trails, nothing is taken for granted.

GOOD SCOUTING.

Much of the information already received will be of great value. Last night General Donica of General Lawton's staff made a reconnoissance up to the very trenches of the enemy, their sentries on picket duty being plainly heard.

Corporal Dewey and nine sharpshooters from the Seventh Infantry went out at dark last night with one day's rations toward the Spanish line, and they have not yet returned, but no fear is entertained for their safety. It is believed they are lying in the bush waiting for night.

At daylight this morning Lieutenant Smith of the Fourth Infantry, with a detail of fifty men from the Seventh Infantry, under Lieutenant Delanoo, crossed the San Juan and went in a northeasterly direction as far as Caney or El Guay, as it is marked on the maps, without encountering any Spanish troops, and fifty men of Company C, Seventh Regiment, Captain Young, also made a reconnaissance in force. The Spaniards have seemingly retired to their entrenchments, and no pickets or skirmishers were encountered. Generals Lawton, Wheeler, and Chaffee have had riders out beyond our advance posts several times.

Captain Wright of General Bates' staff today followed the line of the railroad running out of Juragua towards Santiago to within two and a half miles of the city. The road approaches within half a mile of our front, and can be utilized to bring up supplies and siege guns, the first of which was landed at Baiquiri this afternoon.

AGUADORES TO BE TAKEN.

As soon as the remaining battalions of the Thirty-fourth Michigan and Eighth Massachusetts, which arrived on the Harvard, and the 6,000 reinforcements sent from Tampa arrive, Aguadores, a town on the coast four miles west of Juragua, will be taken. The place was shelled today by several ships of the fleet. Aguadores is on the line of the advance of the army into the interior and close to the railroad. It will then probably become the base of operation, while the supply base may remain at Juragua.

Captain Wright on his reconnoissance obtained information, which is believed to be reliable, to the effect that 3,000 Spanish troops have been sent to reinforce the garrison at Aguadores.

General Lawton will probably make a diversion with his artillery as soon as it is placed in position. Heavy rain this afternoon made it impossible to move today beyond General Wheeler's headquarters. But the roads will dry quickly, the guns will probably be brought up tomorrow, and the entrenchments will be shelled by the artillery and by Colonel Wood's dynamite guns. The shrapnel fire will be used by the artillery. The guns are 3.2 inches, and with shrapnel they are capable of firing 8,500 yards.

DONS FEAR DYNAMITE.

It is said that the Spaniards are in deadly fear of dynamite, and General Lawton will see how he can terrify them.

Simultaneously with the bombardment, General Chaffee's brigade will move forward and occupy a position of vital importance in advance of our front. The correspondent of the Associated Press is not permitted at present to divulge its location.

The military telegraph line has been completed as far as General Wheeler's headquarters, thus placing the front in direct communication with General Shafter, who still maintains his headquarters on board the Seguranca, where he can keep in close touch with Rear Admiral Sampson. It is probable, however, that he will establish his headquarters at Juragua Tuesday or Thursday. The troops belonging to General Lawton's division are kept ready to move in light marching order while the reconnoitering parties are out. This precaution is considered necessary in order to avoid disaster if the small parties of troops should collide with the Spaniards in force. The Cubans under General Castillo are doing commendable work as advance pickets. They are thrown out, day and night, from half a mile to a mile in advance of our pickets along the front and flanks, thus forming a double cordon about the army. There are now more than 13,000 men at the front.

GOOD WATER FOUND.

Drinking water for the troops at the front is obtained from the Rio Guama, a stream full of springs from the mountains. The water is remarkably good, and is now carefully guarded from pollution. The Cubans and our soldiers bathed in it at first, but strict orders have been issued against such practices in the future, and sentinels have been placed to enforce the order.

Strict orders have also been issued about eating the tropical fruits, mangoes, oranges, etc., in which the country abounds, the only exception being made in the case of milk from green cocoanuts, which is considered healthy and refreshing, and limes.

Some of our men made themselves sick through eating fruit.

An epidemic of measles which was started on board one or two transports is spreading to the camp, and about twenty new cases have broken out today.

M'KINLEY KEEPS VERY LATE HOURS.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

WASHINGTON, June 29.—President McKinley was up until after 1 o'clock this morning, going over the war situation with General Alger. Adjutant General Corbin was with them until a late hour. It is stated that the dispatch of reinforcements from here would not cause General Shafter to delay any plans he may have formed. The President frequently of late has been sitting up until an early hour in the morning, watching developments and waiting for news from the army in Cuba. Both Secretary Alger and Adjutant General Corbin are usually with him on these occasions until a late hour.

As a result of the late hour at which he retired, President McKinley was unusually late in beginning work today. A long line of callers crowded the reception room.

ST. LOUIS, June 29.—A special to the Post-Dispatch from Chickamauga Park, Ga., says that there is great satisfaction among the troops there over the report from Washington that Major General Brooke will be appointed Military Governor of Porto Rico.

MERRITT SAILS TODAY FOR THE PHILIPPINES.

He Will Make All Haste to Manila to Avoid Any Prowling Warships of the Spaniards.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

SAN FRANCISCO, June 29.—The speedy steamer Newport, bearing Major-General Wesley Merritt, Military Governor of the Philippines, and his staff, besides the Astor Light Battery and Companies H and K of the Third United States artillery and detachments from the Hospital and Signal Corps, is now on its way to Manila.

As the vessel gradually drew away from her dock the blowing of many whistles told the people on shore that General Merritt had taken his departure from American shores and was on his way to assume charge of the military affairs of the Philippines. Great crowds had assembled to witness the departure of the trim vessel, and many fashionable equippages on the dock told of the presence of representatives of the "400" who had come to bid farewell to friends among the members of the Astor Battery.

Many tugboats and yachts chartered for the occasion accompanied the Newport down the bay and out through the Golden Gate into the broad Pacific, where the last farewells were waved to the departing military gathered on the deck of the steamer.

The Newport will make every effort to overtake the third fleet of transports, which sailed on Monday, before it reaches Honolulu, where the vessels will coal and take on fresh supplies before proceeding to Manila. General Merritt is very anxious to avoid an encounter with any vessel of the Spanish navy, and will issue orders to the fleet at Honolulu to make all possible speed to the islands. It is probable that the Newport will not wait for the other vessels of the fleet at Honolulu, but will proceed with as little delay as possible to Manila.

THE SENATE THANKS OUR NAVAL HEROES.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

WASHINGTON, June 29.—In accordance with the recommendations of the President, the Senate at the beginning of its session to-day took action in recognition of the distinguished services rendered recently by officers and men of the navy and revenue cutter service.

Mr. Frye of Maine reported from the Committee on Commerce a joint resolution recognizing the gallantry of Frank H. Newcomb on the revenue cutter Hudson and of his officers and men; also retiring Captain Daniel B. Hodgson of the revenue cutter service, for efficient and meritorious services in commanding the cutter Hugh McCulloch, at Manila. The resolution extends the thanks of Congress to Lieutenant Newcomb for his heroic gallantry in the action at Cardenas, when he and his crew rescued the Winslow and such of her crew as had not been disabled and killed, and provides for a suitable medal of gold for Newcomb, silver medals for his officers and bronze medals for the members of his crew. It also places Captain Hodgson of the McCulloch on permanent waiting orders, at full pay. The resolution was adopted without debate.

Mr. Hale of Maine, of the Naval Committee, then reported favorably a resolution tendering the thanks of Congress to Naval Constructor Hobson, who with his crew of seven men sunk the collier Merrimac across the entrance to the harbor of Santiago, and providing for the transfer of Mr. Hobson from the Construction Corps of the Navy to the Line. The resolution was also adopted.

After these resolutions had been adopted, Mr. Hoar, addressing himself to the action just taken by the Senate, said:

"All we do and all we have done for Naval Constructor Hobson, in recognition of his distinguished bravery, is to extend to him by name the thanks of Congress. But in this case where a deed of special heroism was performed, it seems to me that we ought to recognize the men who volunteered to accompany him on his perilous undertaking. All were undergoing the same risk, and the names of the entire seven ought to be mentioned in the resolution. I would be glad to see this chamber filled with such heroes as those men are.

Mr. Hoar said that such recognition by Congress was one of the greatest marks of honor that could be conferred upon any man or men.

Mr. Hoar's amendment, including the names of Hobson's crew, was passed. This is the first time Congress has thus recognized men below the grade of commanding officers.

ROUGH RIDERS WERE NOT AMBUSCADED.

(Copyright 1898 by Associated Press.)

SIBONEY, Province of Santiago de Cuba, June 28, via Kingston, Jamaica, June 29, 10:30 A. M.—It is reported here tonight on apparently good authority that the water supply of Santiago has been cut off. If this proves true the city is at our mercy. General Wheeler today forwarded his official report of the encounter between the Spaniards and Colonel Young's and Colonel Wood's command. The officers are highly complimented for their dash and courage.

The General says there is absolutely no warrant for the statement that our troops were ambuscaded. He says the attack was deliberately planned, from knowledge in his possession the night before.

THE LOCAL "BOYS IN BLUE" BID GOOD BYE TO HOME TODAY FOR THE NEW CITY OF TENTS.

Oakland and Alameda Companies March to Camp With the Hearty Godspeed's of the Thousands They Must Leave Behind.

The Oakland boys have gone to camp to the swing of martial music and the rythm of heart strings, of mothers, wives, sisters and sweethearts. Company F forsook home for the tented field at Sather Station. A city full of people saw the blue-coated fellows off, and thousands of bravos resounded in their ears as they kept time to the military march.

There were flowers and tears, oratory, god speeding and the ovation that marked their transition from State to Federal troops.

The company assembled at the armory on Twelfth street at 9 o'clock. There was a big rush to gain admittance and a special squad of policemen was necessary to keep the crowd back. The armory itself was a mass of flowers and bunting. A score of ladies of the American Aid and Red Cross Societies had arranged for a lunch capacious enough to satisfy all present.

The ceremonies were short but impressive. The blue-coated troops had barely been given their seats, and the band, of the Fifth Regiment rendered "America" when Captain Wenk introduced Judge E. M. Gibson, who said a "farewell word to the boys."

The boys listened attentively.

"I know what war is," began Judge Gibson. "I was in the army for two years and one year at the front. I know that the boys of California as well as those of the whole nation did their duty, and I know that the boys now going to the front from Oakland will do the same."

Judge Gibson then outlined some salutary rules to be followed while in camp. Concluding he said:

"Whatever you do carry and conduct yourselves as gentlemen. Let coffee and fresh water suffice for your drink."

The band played again and George C. Pardee came forward also to say a parting word.

"Oakland has always been a patriotic city," began Dr. Pardee. "During the Civil War this city was represented in the war in a California brigade. They were always at the front and were true fighters. It was later a member of that same company and I know the members to be true men.

"I know Company F is made up of true patriots who will defend every star in the blue and stripe of the flag with their life's blood. We hope and pray you will all return covered with honors and glory. But if it should be fate that any of you should not come back through the casualties of war, Oakland will more than mourn. You will have a warm and dear spot in our hearts always. Oakland will cherish your memory as heroes, and as long as patriotic blood flows, you will live in image. Good bye and God bless you." Tears dimmed many an eye at the conclusion of this touching farewell, but when the band struck up a quickstep, the hall resounded with the cheers and plaudits of the company members."

The time had come for saying good bye to private life for many days. Mothers, wives and sweethearts wreathed the blue coats with garlands of flowers, and festooned the rifles that had so long hung in "fatigue dress" in the armory casements, with blossoms and evergreens.

"Forward, march!" A moment later the Company was in the streets in column formation.

Captain Pontier and fifty members of Company A were present to escort their fellow comrades to the camp. Military brevity was the order of the day. With a whirl from the drum, the column swung out onto Broadway and the throng realized that the time for serious business was at hand. With steady step and erect heads, the gaily-bedecked soldiers marched down Broadway and the plaudits of thousands of spectators who lined each side of the street. Overhead was the waving decorations for the coming Fourth of July celebration. Beneath the somber blue uniform of the moving mass, relieved with the bright spots of blossoms and evergreens. At every turn a flag greeted the marching column to receive an enthusiastic reception.

The line of march was down Broadway to Seventh, to Washington, to Fourteenth to Broadway, countermarching on that thoroughfare to Twelfth street, thence to Seventeenth, to Fourteenth avenue, to East Fourteenth, and along that thoroughfare and Haywards road to Camp Barrett. It was a gay parade throughout. Half a thousand youngsters straggled along the line of march, cheering and yelling.

AT THE CAMP.

As the vanguard composing Company A's escort swung into sight of Camp Barrett, the columns of Company G were seen coming across the Park-street bridge. The two companies reached camp at the same time, and were given a royal welcome.

The band played, "The Girl I Left Behind Me," but the girls would not be left behind. Scores of them were awaiting the arrival of the two companies and they broke down the picket lines in their stampede to follow the boys into camp. The sentry corporals roared in vain for order. A regiment could not have kept back the onslaught of pink and white that clung to the blue-coated arms, so the camp officers gracefully surrendered, and the camp was turned into a parade ground, and an hour elapsed before order had been restored.

The ladies of the Red Cross, of course, were equal to the occasion. Delegations were present from Alameda and Fruitvale as well as Oakland, and additional tables were spread for the accommodation of the local troops. The Alameda Society was represented by Mrs. A. M. Clay, Mrs. C. J. Okell, Mrs. Geo. Mastick, Mrs. C. G. Fox, Mrs. G. L. Dillman, Mrs. Peter White, Mrs. Dr. O. Smith, Mrs. Grace Haight, Mrs. Debney, Mrs. C. G. Dudley, Mrs. A. C. Paris, and Miss Mac Laren. Mrs. Sternegger and Mrs. Henry Weatherby did the honors for Fruitvale, while a score of ladies under the direction of Mrs. Kenwick saw that Company F was well cared for.

Company F was assigned to the line immediately east of the Colusa lines of the third battalion, Company G getting the western location. The bands serenaded officers and Red Cross ladies, three hearty cheers were indulged in, and the introduction of the local troops to camp life was over. Thus the beginning of military discipline commenced.

The ladies who assisted in providing the lunch at the armory for Company F were: Mrs. Beth Clift, Mrs. Gibson, Mrs. Ethel Vaughn, Mrs. Myers, Mrs. Francis Stevens, Mrs. J. M. Vaughn, Mrs. Ota Covalt, Mrs. Minnie Wenk, Mrs. Kittie Peterson, Mrs. Bertha Hermann, Mrs. Morrill, Mrs. Annie Smith, Mrs. Frances Trotman, Mrs. Keffer, Mrs. Mary Kidd, Mrs. Jennie Hollywood.

Captain Wenk took with him 103 men to camp, ten of whom were new recruits received at the Armory this morning. The remaining members of the Company are:

Captain C. L. Wenk, First Lieutenant W. H. Cobbledick, Second Lieutenant C. C. Covalt, First Sergeant H. T. Bennett, Sergeant J. M. McCrudden, Sergeant A. D. Wilson, Quartermaster Sergeant A. F. Hason, Corporal A. W. Blakely, Corporal J. J. Swanson, Corporal G. W. Nickenson.

The arrivals at the camp today, in addition to the companies from Alameda and Oakland, include Company A of Chico, under command of Captain Cahill and Lieutenant Jackson, and Company D of Marysville, under command of Captain G. H. Voss and Lieutenants P. J. Devers and D. Canning. This completes the Second Battalion.

The remaining four companies of the new regiment are slated to arrive tomorrow. Immediately upon their arrival Colonel Henshaw will take up his quarters at the camp.

CAPTAIN BARNES REPORTS.

Captain William S. Barnes, the District Attorney of San Francisco, who has just been given the command of the Potaluma Company by Governor Budd, made his bow to Captain Murray, the mustering officer, this afternoon. Captain Barnes expects to take up camp life tomorrow.

Owing to a misunderstanding of orders on the part of the out of town companies a serious hitch has occurred in the work of mustering the companies into the volunteer service. Under the new regulations each member of a company must furnish the Examining Board with a duplicate of the physicians' examination when recruiting is begun. As only Companies F and G went to this trouble they are now the only troops that can be inducted into the new service at once. The remaining troops must send to their respective homes and secure duplicates of the certificates of the examining physician, a process that is likely to cost them a few days' time.

SOLDIER BOYS NOW IN CAMP.

The following is the roster of the companies which were encamped yesterday:

AN OVATION TO COMPANY G.

The people of Alameda tendered the members of Company G a hearty farewell previous to their departure for the camp this morning. The soldiers assembled at the armory promptly at 9 o'clock to find that half the city was there before them to say good-bye. The exercises were in charge of a committee composed of C. L. Weller, W. M. Cubery, B. F. Lamborn, James Fowler, J. Kramer and Hugh Gallagher.

The armory was lavishly decorated with flowers and bunting. The troops were lined up in command of Captain W. M. Simpson to listen to patriotic addresses by Judge Ellsworth, Green Majors, and E. K. Taylor. The exercises opened by the rendering of "America," Miss Elizabeth Westgate accompanying the soloists, Mrs. F. H. McCormick and Miss Patterson. The ladies of the Red Cross Society, at the suggestion of vice-president Mrs. F. D. Colburn, had provided a splendid lunch and the music over, cake, sandwiches and coffee were in order.

At 10 o'clock the company formed in fours and started for the camp, preceded by Ritzau's band of San Francisco, which had been secured for the occasion. Their progress was an ovation. The people turned out in thousands to pelt them with flowers and send after them enthusiastic expressions of good will. The march to the camp was followed by a great crowd of people.

The roster of the company as it now stands is:

Captain, M. W. Simpson; First Lieutenant, G. L. Wethern; Second Lieutenant, E. R. McDonell; Sergeants: H. E. Harvey, August Born; Corporals: V. M. Greene, R. E. Hoppe, A. F. Huff.

Privates—E. Barbeau, W. E. Hinds, H. A. Hadley, D. L. Hinds, E. W. Langdon, C. Parke, Jr., W. J. Shilman, John C. Stamer, J. A. Mitchell, B. Calvo, E. Martinez, J. W. Love, S. C. Herbert, W. H. Wright, A. C. Wilbur, C. J. Stephenson, H. J. Gardner, C. H. Wessel, E. C. Webber, L. H. Wessel, W. M. Crozer, E. C. Harvey, S. S. Marshall, D. J. Welch, O. Johnson, M. L. Green, E. R. Klein, C. Enegren, H. Whitney, J. W. Benner, S. V. Du Bois, Nicolas Maldsen, W. M. Renfro, S. L. Crowley, George W. Elias, Joseph Ehalainece, Obert F. Simpson, E. E. Ray, Chas. F. Martinez, Herman Spelser, Vincent J. Donovan, William J. Goforth, John Schneider, W. E. Schneider, George B. Ell, Henry Ludeman, W. J. Brick, J. Farrell, J. H. Helmstein, L. Huntington, T. J. Lannin, W. Proseck, L. W. Speiser, F. A. St. Sure, J. Rivero, M. M. Moraile, S. A. Nettleton, G. P. Schroeder, W. E. Lucas, W. A. Stephenson, J. F. Forderer, G. L. Hand, R. D. Stevens, L. A. Doyle, F. H. Morton, F. Thompson, C. L. Kelton, P. W. Steinmetz, H. G. Gardenier, H. P. Jacobson, C. L. Helmstein, G. M. Sutherland, A. H. Jaquith, A. W. Bray, A. P. Heise, G. C. Horne, J. B. Ruppricht, W. J. Hamburg, W. T. Steinmetz, John Gallivan, Albert A. Bugrman, William Rohrsbacher, J. T. Forth, H. M. Knight, H. H. Baker, Chas. S. Burns, Albert A. Shorey, John Concannon, Louis W. Schroeder, Chris. Rasmussen, R. E. Vandor.

GOSSIP OF THE CAMP.

Harrison J. Drake, a member of the Mercury staff, is the clerk of Company B of San Jose.

There was only one rejection in the San Rafael troops by the examining board. Fred Birlem, a son of Captain Birlem of San Quentin Prison, was found to have defective eyes.

The Colusa troops have decided to present the Red Cross ladies, who are attending to the work of feeding the incoming troops, with a handsome banner, as soon as the work of mustering is over.

The Oakland, San Leandro & Haywards Electric Line has put on a five minute service to the camp. The Southern Pacific is considering a special service to the Camp from West Oakland.

The San Jose troops are equipped to a man with brand new corn cob pipes, and a big supply of tobacco, the result of the thoughtfulness of one of the leading tobacco merchants of San Jose.

Ex-Surveyor-General Will S. Green of the Colusa Sun has a son in the ranks of the "non comis."

There are three brothers in the ranks of the San Jose Company, and the Garden City boys believe they are entitled to the regimental record in this regard. The brothers are Sergeant E. E. Frost and Privates G. O. Frost and Arthur C. Frost. They are all fine specimens of young manhood and anxious to go to the front.

There is a vacancy in the Second Lieutenancy of Company D of San Rafael, and rumor has it that Governor Budd will give the prize to Vandell Foote, a son of United States District Attorney S. Foote. Foote is now a private in the Fourteenth Regular Infantry.

The button girl has already made her appearance on the ground, and several of the unwary privates have already been looted.

The Ladies of the Catholic Truth Society will establish quarters at the Camp at once.

The line of the Haywards road is dotted with tents and other mushroom structures raised with the idea of supplying small luxuries to the soldiers.

The Government has failed to provide the Camp with mail facilities up to the present time.

There are about a dozen regulars in the Colusa ranks.

The first regimental guard was thrown out last night.

FREDERICK KRAMBS FOUND NOT GUILTY.

Tried Before a Jury in the Police Court For Battering Patrick Kelley.

A jury in the Police Court this morning found Frederick Krambs not guilty of battering Patrick Kelley, the real estate agent.

Kelley and Krambs had some difficulty over the payment for some trees. When Carlson Brothers attempted to erect a staging upon the property of the latter so they might work on Kelley's house, Krambs refused to let them go ahead. Carlson went to Kelley and explained the situation, stating that Krambs had said Kelley owed him money and that he had better go and fix it.

Kelley went to Krambs' residence and called him out. As the latter put his head out of the door Kelley asked him him if he owed him money. Krambs leaned out of the gate, and pointing to where some trees had been planted, said: "Yes, you owe me about $4 for those trees." Kelley called the old man a vile name and hit him over the eye with his fist, whereupon Krambs procured a club and proceeded to retaliate by getting in a blow on Kelley's head that required several stitches to close. At this point some neighbors interfered and stopped the row.

Kelley had Krambs arrested on a charge of battery.

Attachment Suit Filed.

Five attachment suits were filed in Judge Wood's court to-day. Mrs. A. Sheffield brought suit against C. E. Frunk to recover $40. Pauline Sweeney sued Wright Summers for $35 for merchandise. J. Kelly brought suit against W. H. Donahoo to recover $100 on a note. J. Martin sued Emily Wright to recover $2.20 and C. W. Gallagher sued W. P. Penn for $63.30 on a claim for merchandise.

WEDDED BENEATH THE SHADY OAKS.

Miss Mae Vrooman Becomes the Happy Bride of Cleveland Forbes.

Associated Press Dispatches by The Tribune's Special Leased Wire.

SANTA ROSA Cal. June 29.—Miss Mae Baldwin Vrooman daughter of the late Senator Vrooman and Cleveland Forbes of San Francisco were married today. The wedding was a brilliant one and was attended by many prominent persons from various points in California. It was an outdoor wedding, the ceremony being performed beneath the shady oaks on the lawn. The bride who is a slender, graceful brunette, looked charming in a wedding gown of tucked white taffeta. She was attended by her sister, Miss Rachel Vrooman.

After the ceremony breakfast was served on the lawn. Later Mr. and Mrs. Cleveland Forbes will leave on an extended trip.

There were several hundred guests in attendance. A special train bore the wedding guests to Walnutmere, the country home of Mrs. Vrooman.

The bride is a clever artist and is a former student at the Boston School of Technology. Mr. Forbes is connected with a well known San Francisco business firm.

FIREMAN BAILEY SUFFERS A RELAPSE.

Stricken With Paralysis While on Duty and is Now Delirious.

Austin Bailey, the fireman who was so seriously injured in the Sixth street fire a few weeks ago, suffered a stroke of paralysis Monday and is again confined to his bed.

While attempting, at the risk of his life, to capture a nozzle of which some of his fellow firemen had lost control, Bailey was knocked down three times, the last time the nozzle striking him on the head, knocking him over the edge of the roof so that he narrowly escaped falling into the flames. Bailey succeeded in regaining the roof where he was picked up by his comrades and removed to the Receiving Hospital, where the wound on his head was dressed.

Thinking that he had fully recovered, Bailey reported for duty Saturday. Monday he was stricken by paralysis, as stated above, and, as the patient is delirious, Dr. J. T. Kitchings, the attending physician, thinks there must be a blood clot on the injured man's brain.

WEIL IS FINED FOR CRUELTY TO ANIMALS.

Ed Weil was fined $20 by Judge Clift this morning for cruelty to animals. The testimony showed that Weil had tortured a cow cruelly. He was leading the animal from Haywards to Fruitvale. In crossing a creek Weil had pulled at the rope binding the cow's head so hard that her horns had been jerked out. In this bleeding and painful condition, the cow was made to go the rest of the way. It is claimed that Weil's father, Jacob Weil, is more responsible than the boy for the cruelty shown, and a warrant has now been issued for the elder Weil's arrest.

Two Suicides Reported.

Associated Press Dispatches by The Tribune's Special Leased Wire.

SAN JOSE, June 29.—A telephone message from Mountain View to the Coroner says a man committed suicide there last night by blowing out his brains. A similar message from Murphy says a man hanged himself there. No names are given and no particulars are known. The Coroner was gone to the places.

The sum of $11,000 has been raised here for a Fourth of July celebration.

The local Japanese colony has donated $62 to the Red Cross Society.

Meeting Postponed.

There was no meeting of the Board of Public Works this morning, owing to the illness of City Engineer Clement and the absence of Attorney Dow.

STATUS OF THE OSHKOSH STRIKE.

Troops Being Withdrawn and the Trouble Likely to Be Settled.

Associated Press Dispatches by The Tribune's Special Leased Wire.

OSHKOSH, Wis., June 29.—With the consent of the Mayor and the Sheriff, Governor Scholfield has decided to withdraw the four companies of infantry numbering 300 men, leaving the light battery and light horse squadron to take care of the strike, in connection with the 300 deputy sheriffs and special police already sworn in.

At a meeting of the Woodworkers' Union today the strike, as far as the McMillan mill is concerned, was declared off and 200 men will resume work at that factory. It is believed this action will bring about a speedy settlement of the trouble in all of the mills.

FIFTH WARD DAVIS CLUB HOLDS SESSION

Candidate For Governor Talks About the Campaign.

The Fifth ward supporters of Mr. Davis assembled in their initial meeting last evening at Pythian Hall for the purpose of effecting a permanent organization. Under the name of Fifth Ward Davis Republican Club, some fifty representative citizens gathered, organized and inaugurated the campaign with appropriate speeches.

Mr. Davis being called upon, spoke in part as follows:

"I appreciate fully the fact evinced by your organizing here tonight. You are not alone, for from this on you will be one of many similar clubs organized in this city and county. The roll of the club organized in the Second ward last night numbered 211 names; the Fourth ward has reached the 200 mark; and I know that there are many hundred more Republicans who entertain the same views that you do who are not members of any club, so you are but a part of a large number.

"My going into this matter was not an individual notion of my own. Friends of mine got together without my knowledge and determined what they thought best to do to try to raise Alameda county in the councils of the party to that position to which she is entitled. They arrived at the conclusion which they are now advocating. I was inclined to think the reasons they gave had force and that if this county could attain to that position rightfully hers through any legitimate work of mine, that my name could be used as it is now being used.

"There are fifty-seven counties in this State. If Alameda county shall reach her right place it is necessary that the name she shall submit shall be satisfactory to the other fifty-six counties. If I thought that your choice would not meet with the approval of the other fifty-six counties or would not redound to the credit and success of the Republican party I would take my name from the list in the twinkling of an eye. I have never done an act and never will knowingly to endanger or to weaken the standing and supremacy of the Republican party. I do not go upon superstitious adhesion to anything, not even to the Republican party, but I profoundly rely upon the principles of that party and the political doctrines upon which it proceeds.

Republican Party—those two words stand for principles that are indestructible; for the unity of this Nation; for unity of the right of every man to be free, to walk where he pleases, to follow whatever vocation he pleases.

"As a people we proceeded up to 1860, one-half claiming that there was the right to hold another man in bondage because his skin was black, and the other half denying this. The Nation was divided against itself.

"And the thought of the Republican party then was that the equal right to liberty was universal. Men gave their lives for it. And then came the period of reconstruction. It was the Republican party which bound these sister States together. Then came the paying off of the National debt, $2,700,000,000, and the Republican party paid it down to three-quarters of one billion.

"Democrats to-day rebel against paying pensions of $140,000,000 per annum. But they forget that the annual interest on the debt incurred in putting down a Democratic secession was at its height $150,000,000 a year. And as the last act of James Buchanan was to borrow money in times of peace, so the last act of Grover Cleveland was to borrow $262,000,000 on bonds in a time of profound peace. There is more that tells what those two words, 'Republican Party,' stand for. It is not a harmless play to strike the Republican party. It is not play, my fellow citizen, that men in this city and this county take stands against it.

"If a county is going to accomplish anything with seventeen delegates, or with seventy, she must make up her mind that to select a citizen whose name means something in the Republican party. Suppose some other county had done what Alameda county has done. Suppose the 5,200 majority had been rolled up in Santa Clara county that saved the State, suppose that county had our record for the past twenty-five years and for 1896 and that that county should in 1898 present the name of a man for Governor. I tell you, now, I should favor recognizing Santa Clara county and giving her the Governorship if she gave us the name of a representative Republican. Suppose then that they presented the name of a citizen from San Jose. The people of Shasta, San Bernardino, Placer and the rest would naturally inquire, 'who is this San Jose man, Mr. Johnson?' And the reply is, 'He is the best fellow in San Jose.' And the next question is, 'What has he done for the Republican party? We have not had the pleasure of ever having heard him, or heard of him until now.' The San Jose delegation again says, 'Why, he is the best fellow you ever saw.'

"'Yes, we know, but what we want to know is, what Republican service you point to?'

"If we attempt to elect all good fellows in the Republican party, we would have to elect about 10,000 Governors at least.

"Then comes the next consideration. How will it be in 1900 if we nominate unwisely? If this campaign is managed wrong and we lose California in 1898, I have the gravest concern for 1900, and I do not want to live in a Democratic State on national issues. I am opposed to doing anything or omitting anything in 1898 that will injure or endanger the success of the Republican party in 1900. The individual is nothing. I tell you now, my friends, that if you ever find that the Republican party will be endangered by following the name of Mr. Davis, don't you follow that name. I am never for any man as against the interests of the Republican party. The internal desire of the individual for office is worth no consideration. What all the counties want to know is what is the record, what are the qualifications, what is the recorded service of your candidates."

Mr. Davis at this point referred to the press, mentioning its influence, but maintained that it never could replace the advocate, the tongue, the face to face and eye to eye work of campaigns in any republic, and that there never would be a political campaign where the personal platform capacity of candidates would not be a potent factor.

Continuing he said: "I often wonder how some things in Alameda county are possible. We are known throughout the State as the banner county, as the one which with its 5,200 majority, saved the State from Bryanism. I regret to have to explain to visiting Republicans that down in the court house we have a Populist sheriff with Populist deputies, a Populist superintendent with all his deputies, a Populist treasurer with his deputies, and an assessor to assess our property who ran against the Republican party. I do not see where there is any sense in all this. Is there any political sagacity or sense in it? Is there not one Republican of capacity in this county able to fill the office of sheriff? Another of conducting our schools? Another of guarding the treasury? Another of assessing our property? This state of facts is the direct result of what I call individualism in politics, and it is not the way to preserve the Republican party which is always right in principle and right 999 times out of 1,000 in her nominations.

"These considerations I present to you that you may present them to your neighbors.

"One farther thought. There are people who follow certain kinds of games as an employment. Some are prohibited by law; others have the ban of general disapproval. But there is still another game often referred to. I have been amused by remarks made now and then by those who are trying to defeat your purpose, that Mr. Davis is a good man, right in every respect, but that he does not understand the game. I do not do all the things I understand. I know of instrumentalities and agencies which I will not employ. I should not be surprised if, within thirty days, some would find that they have spent all their substance at the wrong 'game.' The people do not all play games.

"I would rather have the respect in 1898 and 1899, on the first day of that new year, of you, my friends, who sit in this room than to have the votes of all the people of this State, and lose your respect. I tell you a man can cheerfully undergo labor and toil;—anything except loss of the approval of his conscience and loss of self respect. When this is gone he is pauper, though dwelling in a palace. There is something higher than anything any man can have conferred by numbers or by votes. There is something higher than office. There is one chair that I am going to occupy which is higher than the governorship, and that is the seat of self respect."

Following Mr. Davis, D. Edward Collins spoke a few words endorsing the speech just uttered, and emphasizing the need of nominating a man for Governor of California whose life has always been linked with her political achievements. "Such a man" he declared, "is W. R. Davis."

George Fairchild, E. C. Sessions, A. W. Bishop, and Mr. Farnum also addressed the meeting.

The election of the Club's officers resulted in the following selections: Mack Webber, president; Philip Z. Stockinger, F. R. Williamson, E. C. Sessions, D. W. C. Gaskill and A. C. Henry, vice presidents; Charles A. Streitt, secretary; Otto Streitt, treasurer, and J. J. Cotton, sergeant-at-arms. A. W. Bishop, E. C. Sessions, and A. C. Henry were appointed as a committee on by laws and regulations.

The meeting adjourned until next Tuesday evening.

ANXIOUS FOR A MUNICIPAL WATER PLANT.

Berkeley Takes the First Step to Secure it.

Berkeley is anxious to own a water plant so that a crisis like that at present existing will be avoided in the future. A committee was appointed last Monday night to organize at once and prepare a preliminary report as to the cost and feasibility of such a plant.

Louis Julian Le Conte, the eminent engineer, heartily favors an independent plant. He says:

"Where a community is dependent upon a private corporation for its water supply, it has no hold on the company. When a crisis comes like that which Berkeley is now facing, the public is helpless. Our citizens, as I interpret the action of the Board of Trustees, have signed their declaration of independence. They have taken the bit in their teeth and intend to go ahead on their own hook. The committee selected by the Board of Trustees is empowered to look into the matter of the appointment of a water-supply commission and to ascertain as nearly as possible what will be the expense of a thorough investigation as to the probable cost of entirely new water works, to be built and owned by the town. Such a municipal water supply should be on the basis of an annual increase of 1,000 in population. Engineers have already located a valuable supply of underground water within a reasonable distance. The town will have to erect a service reservoir, purchase pumping machinery and have a rational system of piping, which the existing company has never provided. There is no doubt whatever that if the town takes hold of this system under the forty-year bond plan which the State Code requires, the works will soon pay for themselves."

One of those most enthusiastic for the consolidation of a city and county said to-day that the most practicable and durable relief for Berkeley from its annual water famine would be annexation to Oakland. This city has two water supplies, each capable of supplying a city several times as large as Oakland is at present, and should Berkeley become part of this municipality, it would have to be supplied at the same rates that now prevail here. Oakland is better supplied with water than any other city in the county, and it is said to be absurd for Berkeley, which joins Oakland's borders, to be suffering a drought every year and a famine this year.

Weather Forecast.

SAN FRANCISCO, June 29.—Weather forecast: Fair tonight and Thursday with fog on the coast; northwesterly wind.

WEDNESDAY.....JUNE 29, 1898.

The torpedo gunboat has been tried and found wanting. Captain Sigsbee has demonstrated that all thatis necessary to checkmate this "terror of the sea" is an American gunner and a good gun.

The temperance people at Berkeley need not mourn much because the Trustees have reduced the saloon license from $50 to $25 a quarter. The tax was a nominal one anyhow, for any one who wanted to start up a saloon would certainly not have been deterred by the dollar a week difference caused by the old rate.

Professor Augsburg of Salt Lake city who has been elected by the Board of Education to the position of assistant teacher of drawing, is undoubtedly a very excellent and competent man, but why the necessity of sending to Salt Lake for an instructor? Surely there are plenty of competent people right here in Oakland who would be glad to take the position.

Once again the ranchers of the San Joaquin Valley are experiencing the benefits of competition, the Valley Road having made another big slash in the freight rates. The Southern Pacific will, of course, have to meet the cut and the result will be that many thousands of dollars that under the previous conditions would have to be expended for transportation will now go into the farmers' pockets.

Our merchants will undoubtedly respond thoroughly to the appeal for a generous decoration of the business part of town for the Fourth of July. The display should not be confined, however, merely to the route the procession is to travel, but should be made as general as possible in the residence and commercial sections alike. Surely every one will be patriotic enough to display a flag or a bit of bunting.

Editor Dungan of the Woodland Mail has issued a notice to his patrons in which patriotism and business are blended very happily: "I expect to be called to the front in the next few days with Company F," he says, "and therefore all those indebted to the Mail are respectfully requested to call and settle the same." It looks as if it would be hard to ignore an appeal of that description at this particular time.

From all directions come the reports of the adoption of anti-fusion resolutions by the Populists, the Seventh ward Pops of this city being the latest to fall in line in this regard. Even in Kern county, which was the hot-bed of fusion during the last campaign, it is believed that the Populists will insist on going it alone and the Democrats throughout the State are awakening to the fact that their prospects are daily becoming worse than ever. What with the war, the general endorsement of the National Administration and the desertion of their allies, the Democrats won't have the ghost of a chance this fall.

Joaquin Miller says that there is gold representing thirty million dollars on the dumps at the Klondike, so unless he has taken the customary poet's license and drawn on his imagination, treasure will soon be pouring into San Francisco. It is doubtful, though, if even that can revive the badly flattened boom, for things are so bad in that line nowadays that nearly all of the Alaskan transportation companies are on the verge of bankruptcy. The war is blamed for having caused the depression in the business, but the fact of the matter is that the discouraging stories that have been coming down from the north brought about the setback.

Brigadier-General King, who has for years made a snug income ou of his popular series of war stories, has always disclaimed using his pen for purely literary reasons and frankly acknowledges that it is the dollars he is after. This business turn of mind he possesses has again been given illustration, for with the war fever at its height and his own individual prominence as a brigadier as a background, he has produced at one of the San Francisco theaters a military play. Of course it is a big success—it couldn't be otherwise under the circumstances—and the thrifty general will have his pockets well lined with local dollars before he sets sail for Manila.

IF GERMANY INTERFERES—

The movements of the German warships at the Philippines are creating considerable apprehension in the minds of many, for, despite the assurances of the Berlin Ministers that nothing out of the ordinary is contemplated, and that we need not figure on any interference on their part, it is not pleasant to read the press reports that are coming from Manila regarding the Kaiser's fleet. One by one warships bearing the German flag have been steaming into the harbor there until now eight fighting boats are on the scene, making more of a match as far as men and armament are concerned, for the squadron under Dewey's command. There is an added danger, to the possibilities of the situation too in the fact that there are many other German warships in Pacific waters, some being near at hand on the Chinese coast, so in the event of a clash our fleet would be badly handicapped.

There are other incidents, too, that in a sense add to the possible gravity of the situation. The officers of the German ships in Manila bay are said to be on the best of terms with the Spaniards, whereas it is very evident that they are not inclined to harmonize with the members of our fleet. They are reported as being ashore a good deal and taking a good deal of interest in the fortifications, and their friendly position towards the Spaniards is indicated by the announcement that Admiral Diedrichs of the German fleet has made a request to General Aguinaldo, the insurgent leader, for the release of the recently captured family of General Augusti, the commander of Manila. Still another omen is the report that one element of the insurgent party is said to favor a German protectorate instead of one for Americans, and as Spain is said to have semi-officially offered a coaling station to Germany in the Philippines if the islands are saved from America, some of the reasons for a desire to help out Spain if possible can be traced to Germany's present stand.

No one of course questions the fact that the "War Lord" of Germany, the ambitious, egotistical young Kaiser, would openly assume control of the Philippines if he dared to, but hotheaded as he is and despite his belief in his semi-divine powers, he is not willing to throw down the gage to America and force an issue. There are many reasons for caution, not the least of which is that such an action might result in an immediate formation of that Anglo-American alliance that all Europe fears. Then, again, although France has at times during the present conflict seemed to be more in sympathy with Spain than with us, the Kaiser is not so sure but that any attack he might make on us would not be followed by the lining-up of Germany's arch-enemy in our behalf. Both England and France would certainly have good reasons for making such a move, because they could take the stand that a German protectorate over the Philippines would be as fatal to their interests as to ours.

The question will all be settled soon anyhow for on the arrival of the land forces, an assault will doubtless be immediately made on Manila. Germany has announced that she intends to land marines there to protect the interests of her citizens and of course if they confine themselves to that immediate undertaking we will have nothing to say. Any attempt at interference though in behalf either of the Spaniards or their own interests will unquestionably be followed by summary measures by Admiral Dewey and then if Germany still insists on running counter to our wishes she will find a hornets' nest about her ears. Of course, all these alarms are mere surmises, but they certainly can be regarded as possibilities in view of the position Germany has taken with reference to our operations at Manila.

Under the rules of civilized warfare which prohibit the using of weapons that are unnecessarily cruel or cause inhuman mutilation it looks as if a stop could be put to some of the methods adopted by the Spaniards, such, for instance, as are described in the following dispatches from the front: "The Spaniards are using brass-sheated lead bullets and the brass rips on striking and tears the flesh horribly, while the small brass splinters cause blood poisoning. They are practically explosive bullets and are used in the Remingtons. They also cut a small cross through the end of the Mauser bullet, so that it mushrooms on striking with a similar result."

One of the most pleasing sights in connection with the big encampment across the bay consists of the many evidences of Christian care. From one of the largest tents in the camp the pennant of the Y. M. C. A. is flying and scattered here and there are the headquarters of the various religious organizations and fraternal bodies. Their presence, too, is not in vain, for no places are more frequented than those where the Christian and other comforts of the soldier boys are attended to. As for the good they are doing, it is beyond calculation.

Those who have been decrying the benefits of that proposed Anglo-American alliance are having an opportunity now to see practically where some of them come in. But for the influences exerted in our behalf by Great Britain, Admiral Camara would undoubtedly have had no trouble in coaling his squadron in Egyptian waters, whereas as things are now, he is tied up for three days anyhow and maybe indefinitely. Those three days, too, may mean the saving of the lives of 3,000 men on the transports that have just put out from San Francisco.

Camp Barrett is the success we said it would be. The soldiers are all happy over the selection of their tenting-ground, for they know that it means far more individual comfort for them than they could obtain the other side of the bay. There is no question, too, that it will be much healthier and it is to be hoped that the hospital tent will be empty all the time the boys are there.

The action of the Supervisors yesterday in deciding to extend all encouragement possible to the growing coal industry of this county cannot be too highly commended. The product of the Tesla mines has been favorably reported on in many localities but has not been accorded its full meed of encouragement in its home county. Large investments have been made at Tesla and a new town has consequently been placed on the map of Alameda county which is steadily growing. The development of the coal mines will lead to the location of manufacturing plants at that end of the county and it is a duty that all official boards and citizens owe to themselves and to each other to work together for commercial progress. The new coal will be given a thorough test at the County Infirmary and the result will be watched with interest.

Sam Davis of the Carson Appeal has won more popular honors for himself in Nevada by knocking out the poll tax law of the Sagebrush State. A member of his staff was in trouble through not having paid the obnoxious tax and Sam went into court in his behalf and succeeded in having the law declared unconstitutional. Poll tax is equally in disfavor here, and it is said that at the next session of the Legislature strenuous effort is to be made to have the law repealed. As under the new county government act the assessors no longer get percentages out of it, there is not much use backing it up, for the majority of people succeed in dodging it anyhow.

The announcement that after the capture of Santiago a descent will be made on Porto Rico shows that the policy is not to be an attack on Havana forthwith. In point of fact Blanco's assurances about being able to defend the capital are not without foundation, for according to the best available statistics he is able to center 100,000 men there, which alone is a big item to consider. When to this is added consideration of the fortifications and natural defenses of the city, it will be seen that to take Havana by assault would be a by no means easy undertaking.

Despite the not very fruitful conditions of the present season, those interested in the San Leandro cannery are going ahead with their plans. There will be plenty of work for the limited capacity it will necessarily have the first season and it is a good idea to get it in working order anyhow. The bonus list is to be closed in a day or two and as the entire community thereabouts is so vitally interested in the success of the venture, it is to be hoped that the enterprise of the citizens will not permit any hitch in that regard.

It is all nonsense to suppose that the administration is only bluffing when it announces that a squadron is to be sent to the Spanish coast. In the first place the eyes of the world are upon us, and as it is the only time we have engaged in an offensive fight, we cannot afford to allow ourselves to be belittled in any way. Then again, there is so much to be gained and nothing to be lost by sending a fleet to Europe that it really would be unwise not to take advantage of the situation.

MARVEL AT JUDGE WOOD'S STATEMENT.

Justice Wood's statement that he is willing to give up his present office as there is not enough work to keep him busy, has caused considerable comment throughout the State. The following paragraphs are self-explanatory:

The Oakland justice of the peace who advocated the abolition of his own office on the ground that there was not enough work for him to do to earn his salary fairly, should be fitted out with wings and a crown.—Santa Ana Blade.

Oakland has the champion office-holder to date. He is drawing a stipend of $156 per month, but wants to relinquish the position on the ground that there is nothing for him to do and that it is not right to perpetuate the office. This man deserves to have his name immortalized. He is certainly the first one on record to do such a thing.—Alameda Encinal.

THE OREGON FIRED THE FIRST SHOT.

An Oakland Boy Tells of the Battle of Santiago.

William R. Brown, an Oakland boy on board the Oregon has sent his father some interesting news from the Cuban seat of war. The letter, which is dated from Santiago de Cuba, says:

"While we have travelled over 13,000 miles looking for a fight with the Spaniards we did not find one until today, (June 6th). After coaling up at Key West we joined the blockading fleet of Havana. There were about ten American warships there and we got three cheers from them all for our successful trip around the Horn. As we passed the Indiana her band played 'There's a new bully come to town.' The next day was Monday and the Oregon, New York and the torpedo boat Porter left early for Santiago, leaving the rest of the ships to blockade Ha-

W. R. BROWN, GUNNER ON THE OREGON.

vana. We arrived in Santiago early Tuesday morning. We got lots more cheering from the American squadron. The great Spanish Cape Verde fleet is inside the harbor and is afraid to come out. They were so anxious to get at the Yankees before the war, but since they have seen some of Uncle Sam's ships they have changed their tune. Volunteers were called for from the fleet to take a merchant steamer called the Merrimac into the mouth of the harbor, which is very narrow, and sink her so that none of the Spanish ships could come out in case another fleet should attack us from sea. Eight men and three officers from different ships volunteered and went in. They were successful enough to sink the vessel all right, but they were captured before they could get away and put in Morro Castle. There is another Morro Castle in Havana. They knew that if they put the prisoners in the castle we would not fire on it.

"After laying off the harbor a week, nearly, orders came from the flagship to bombard the fort next morning. All hands were called at 5 o'clock, and had breakfast at 5:30 this morning. We were told to be ready to move at 6. About 8 o'clock all the ships formed a line of battle. The flagship had a signal up which all were watching, because as soon as that signal was hauled down it meant 'commence firing.' Down came the signal and the Oregon was the first ship to fire two eight-inch guns together. Then all the ships commenced firing. They kept it up for four hours and the smoke got so thick we could see nothing. Shells were flying all around us, but none struck. Only one of our ships was hit, but no damage was done. The forts quit firing and we withdrew at noon. There were thirty-five killed and ninety wounded on the Spanish side, and one man injured on our side. We are still keeping up the blockade and as soon as the troops come we will give them some more of McKinley's peace makers. You ought to have seen the dust fly and the Spaniards too while we were firing. I shall never forget it."

BERKELEY NOTES.

BERKELEY, June 29.—Miss Williams, a University student who is spending the summer at the home of Professor Paget, was knocked down by a bicyclist last night and seriously injured. Her right arm and side were severely bruised and there were abrasions on her head from the fall upon the asphalt pavement. It is thought by the family that only the rigidness of her hat saved her from more serious injuries.

Residents of South Berkeley will hold a meeting tonight to consider the question of a water supply.

Berkeley boys encamped at Sather will be presented with a wagon full of cakes, pies, and jellies on the Fourth by residents of the college town.

It is probable that Berkeley will have a new fire alarm system. A committee from the Board of Trustees have been investigating the matter. Their report recommends the establishment of a central tower fifty feet high, in which will be suspended a 1,500-pound bell, in electrical communication with boxes in all parts of the town. The plan which it has submitted itself to the committee is that known as the Gamewell system, and the report contains specifications in accordance with that conclusion.

Tracy R. Kelley, who graduated with the class of '97 from the University of California, has been elected vice-principal of the High School at Modesto. He will assume his duties there at the opening of the next term in July.

James Peterson shot a large wildcat this morning near the residence of Anson D. Blake on Piedmont avenue. The animal made its appearance near the Blake residence between 9 and 10 o'clock. It had got into the chicken-yard when Peterson discovered it. The animal met Peterson with a furious attack, but the first shot proved effective, the bullet lodging in the animal's neck. The cat weighed thirty pounds, and was over three feet long.

FOURTH OF JULY ARRANGEMENTS ABOUT COMPLETE

Merchants Exchange Committee Well Pleased.

The regular meeting of the Merchants' Exchange was held last evening with the following members present: President, George W. Arper, Fred Sinclair, Feodor Muhr, J. F. W. Sohst, F. M. Farwell, T. J. Lia, H. C. Coward, George J. Buntschuell, H. D. Cushing, J. S. Wixson, Frank C. Howe, and Secretary Webb N. Pearce.

J. S. Wixson of the Fourth of July Committee reported that the arrangements for the celebration were about complete and this committee felt that when the celebration was over the people of Oakland would say that the Merchants' Exchange had done its work well.

President Arper stated if there were any new developments in the matter of the improvement of Webster street.

Mr. Sohst stated that he had been informed that a number of the property owners on Webster street had filed a protest with the City Council against the improvement being made at the present time. This, he said, took the matter out of the hands of the Exchange.

Secretary Pierce had talked the matter over with the Superintendent of Streets, he said, and had been informed that nothing would be done until the Railroad Company had made the necessary changes in its tracks.

As the California Jockey Club held received no official vote of thanks for the Tunnel Day benefit, President Arper suggested that the matter be taken up and customary courtesy extended. The matter was left in the hands of the secretary who was instructed to ascertain what had been done in regard to the matter.

In speaking of the Fourth of July parade, Mr. Sohst expressed a desire to see the Exchange represented whereupon Mr. H. C. Coward agreed to furnish a carriage for the use of those who desired to take part in that manner. It being the sense of the meeting that the Exchange should be represented by a carriage Mr. Coward's invitation was accepted and Mr. Cushing appointed a committee of one to see that the carriage was filled with good looking people on the Fourth.

There being no further business the meeting adjourned for two weeks.

Kansas Bank in Trouble.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

ABILENE, Kan., June 29.—Thomas Kirby's bank, a private institution, and the oldest in the county, was taken in charge by State Bank Examiner Friedenthal today. It has $218,000 on deposit and $70,000 cash on hand. Its assets include a large number of farm loans, and Kirby personally owns considerable real estate. The closing came because he failed to comply with the Bank Commissioners' order to cut down the loans. It is believed depositors, who are scattered all over the county, will eventually be paid. Several thousand dollars of county funds were in the bank.

They will spend their summer vacation here. Professor Coe will include in his outing a sea trip to Oregon in one of Mr. Knowland's coasting vessels.

THE PENNSYLVANIA DEMOCRATS CONVENE.

Associated Press Dispatches by The Tribune's Special Leased Wire.

ALTOONA, Pa., June 29.—The State Democratic convention assembled to nominate a full State ticket for the fall campaign was called to order this afternoon by Chairman Carman. P. A. Boyle was chosen temporary chairman. His speech of acceptance was uninterrupted by applause, except when he mentioned the name of William J. Bryan. The name of the Democratic idol excited tremendous applause, and left no doubt as to the sentiment of the delegates.

The platform is causing the delegates more concern than the nominations. A half dozen leaders have been at work on the platform for two days, and had not reached an agreement when the convention met today. The pronounced free silverites insist on a bold declaration in favor of a 16-to-1 policy and a strong endorsement of the Chicago platform. The conservatives are opposed to any resolution on the silver question and demand a platform limited to State issues, indorsing the war policy of President McKinley.

FATAL BURNS CAUSED BY AN EXPLOSION.

Young Mrs. Groom Dies After Hours of Agony.

Was Preparing Supper in Her Home Near Danville.

(Special to The Tribune.)

PLEASANTON, June 29.—News was received here today of the death of Mrs. G. W. Groom who resided with her family at Danville, from burns caused by an explosion of kerosene.

Mrs. Groom was preparing supper last night when the accident occurred. The food was being cooked on a kerosene stove and when engaged in lighting the oven there was an explosion. It is believed that the kerosene faucet had been turned on for some time and that Mrs. Groom's attention being taken by her baby, she left the stove for several minutes.

Without thinking of the result that would follow the lighting of the burner in which considerable oil had run, Mrs. Groom struck a match and a moment later her entire clothing was in flames. Help was at once tendered and medical aid sought, but the woman was fearfully burned and shocked and she gradually sank. Three hours after the accident she died.

Mrs. Groom was formerly Miss Simpson of Pleasanton and was married about two years ago to G. W. Groom, a prominent resident of Danville. She was one of the most beautiful young women in the county and is only 25 years of age. A few months ago a little child was born and their home was one of the happiest.

William Simpson, the father of the unfortunate woman, is a well known rancher near here and the rsister Mabel was a member of the last graduating class of the High school.

IN THE COURTS TODAY

The divorce suit instituted by Jessie de Lancey against John I. De Lancey was referred to Court Commissioner Babcock to take evidence by Judge Ogden this morning.

Margaret J. Jones has filed a suit in foreclosure against Charles B. Andrews et al. to gain possession of a lot on Ruby street and Thirty-eight street. The mortgage was given as a security on a promissory note for $1,200 made in August, 1891.

L. A. Pelton has commenced suit in foreclosure against Henry Conbrough and wife. The tract in Berkeley was given in security for a promissory note of $1,500.

The executor of the estate of Karl Beck, deceased, has been authorized to sell ten head of cattle belonging to the estate for not less than $20 apiece.

Appraisers have been appointed by the court as follows:

Estate of Robert Smilie, A. H. Breed, A. L. McPherson and George W. Hoguet; estate of Catherine M. Porter, A. F. Schmeer, Fred Murdock and A. Hollywood.

Judge Ogden today handed down a decree quieting title in the suit of Anna M. Cushing against P. J. Kennedy, as administrator of the estate of Kate Kennedy, deceased. The land involved is situated at Everett and West Thirteenth streets.

SENATE COMMITTEE CROSSES M'KINLEY.

Strikes Out an Appropriation Which He Strongly Favors.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, June 29.—The President is deeply concerned at the action of the Senate Appropriations Committee in cutting out of the sundry civil appropriation account the clause appropriating $10,000 to defray the expenses of the joint commission to be held in Canada this fall to endeavor to effect a settlement of the many important questions at issue between the United States and Canada. This commission has been arranged for by the Secretary of State, acting under the direction of the President, in answer to what he believes an unanimous popular demand. There were many questions pending between the two governments that contained possibilities of serious complications, such, for instance, as the Alaska boundary question, which on account of the extraordinary development of the Klondike country, had become a matter of the greatest importance.

REV. DR. SAWYER GOES TO WATSONVILLE.

The Rev. Dr. Sawyer, former pastor of the Central Christian church, left for Watsonville today. He has received a call to the church at Watsonville which is one of the largest in the State and has decided to accept. The church is in a flourishing condition financially and Dr. Sawyer was offered a flattering salary to be pastor.

COAL MINERS STRIKE.

Associated Press Dispatches by The Tribune's Special Leased Wire.

CLEVELAND, June 29.—A special from Sharon, Pa., says:

All the coal miners working at Jackson Center, Stonboro and Sandy Lake have been induced by the strikers to quit work and join their ranks. About 400 men came out yesterday. Tents and fixtures from Pittsburg will reach the men this week. The number of strikers is about doubled.

SUCCESS OF THE FOURTH ASSURED.

Sub-Committees Working in Harmony and With Energy.

Nothing more than a glance at the names of the men comprising the executive committee of the Fourth of July celebration is necessary to satisfy any one that the affair will be an unqualified success. No more representative body of men could be found in the county. All are known for their energy and executive ability and as each has a personal pride in doing his part as well as a patriotic pride in the success of the whole demonstration, Alameda county will certainly enjoy a noble reminder of '76 and will also have the "stirring time" of '98 brought prominently to their attention. John W. Mitchell showed excellent choice in the assignment of his colleagues to their various duties. There need be no doubt about the success of the parade or the quality of the music that G. B. Daniels, W. R. Thomas, Frank K. Mott and F. M. Farwell are responsible for. Each has a record in that line that needs not to be recalled. With the financial end of the celebration in charge of Theo. Gier, John A. Britton, and W. H. Friend, there will most assuredly be no deficit. A. H. Breed, J. F. W. Sohst, and John F. Towle have already given an earnest of what they intend to do in the way of decorations. Entertainments on public occasions have so often been successfully planned by P. M. Fisher, E. A. Heron and Miss Mollie Connors that no uneasiness need be felt in that direction. The programme of the fireworks, which has been already published, shows that J. S. Wisson, J. F. W. Sohst and Sol Kuhn have already faithfully performed a large share of the duty allotted to them. Any one who remembers the great Christian Endeavor reception by the willows last year must know that the reception committee, consisting of G. W. Arper, John A. Britton, and K. A. Hughson, is complete master of its task. Nor need it be doubted that Fred Sinclair, chairman of the press committee, will give the celebration all the publicity it deserves.

WALLY EVANS FINDS HIS LOST "MAY BOY."

His Colored Servant Has the Horse on the Montana Circuit.

W. D. Evans, the horse owner has located "May Boy" his lost race. The horse has been located in Montana where Beverly Crampton, Evans' colored servant hold the animal in his charge. A few weeks ago Wally Evans kept his horse at the Oakland track. The animal was a valuable one, and has frequently landed some good purses for its owner. One morning Mr. Evans, with a party of friends whom he had brought from San Francisco, went to the racetrack for the purpose of giving an exhibition of his fine animal for the benefit of his guests. On going to the stable it was found to be locked, and a little later Wally discovered that May Boy and Mr. Crampton were both missing.

A search was made for the animal and its groom, but nothing could be learned of them in this State. Some time later John Mott, who is acquainted with Evans and his horse, saw May Boy on the Montana circuit, in charge of Crampton, who was entering the animal on his own account. Mott at once communicated with Evans, who swore out a warrant for Crampton's arrest. Requisition papers were obtained from the Governor yesterday, and Crampton will be brought back in a few days.

ATTORNEY DUNNE WEDS AN OAKLAND BELLE.

The Quiet Wedding Was Solemnized at St. Paul's Church Yesterday.

P. F. Dunne, the well known San Francisco attorney and Miss Annie Hachmien were quietly married at St. Paul's Church yesterday at 11 A. M. Only a few close relatives witnessed the ceremony which was performed by Dr. Robert Ritchie. The church was simply and artistically decorated. After the wedding breakfast, Mr. and Mrs. Dunne left on a short wedding trip. On their return they will reside in San Francisco.

The bride is well known in Oakland and formerly resided at 1453 Myrtle street. She is a graduate of the State University and is a clever and accomplished young lady. Mr. Dunne is associated with Henry C. McPike in the law firm of Dunne & McPike and is considered one of the brightest attorneys on the coast.

HEALER FRANCIS DRAWS CROWDS.

"Healer" Francis is attracting crowds of people to his little tent on Broadway. After the laying on of hands, he professes to cure the sick and afflicted. Francis stands on a little platform and the procession of lame, halt and blind pass by, he pronounces a blessing and calls them cured.

SENATOR DENISON MAY RECOVER.

The condition of Senator Eli Denison remains practically unchanged. He is resting easily now and is able to sleep better than previously. His physicians remain in constant attendance and now feel encouraged to hope that Senator Denison will recover.

Changes in the Board of Trade.

It is rumored that there is likely to be a change in the near future in the secretaryship of the Board of Trade of this city. Craigie Sharp, who has been secretary of the Board at $100 per month, may be removed as several members are of the opinion that a younger man could do the comparatively limited work required and not give his whole time to it. The previous secretary was paid a much smaller sum than that received by the present secretary, and it is thought that the Board of Trade would not suffer if economy were practiced in the expenditures. Several names have been mentioned of possible successors to Mr. Sharp.

However, nothing but rumor has been going the rounds.

12

It takes a man who is a whole man, at least physically, to be a western cow-boy. His every-day life calls for great physical endurance, and upon some occasions this must also be backed by considerable nerve.

It would be a good thing for many a hard working business man if he could turn cow-boy for a couple of months each year. It would give him a chance to get the free, pure, invigorating air of the prairies into his lungs, a little steel into his muscles, a little edge to his appetite and a little of the calm of the boundless plains into his nerves. Unfortunately, the rush of modern business will not permit the average hard working business man to turn cow-boy even for a short time each year. The only resource left him, if he does not wish to break down prematurely, is to keep a watchful eye upon his health, and when he finds that he is getting out of sorts, let up a little on work, and resort to the best of all known tonics. That tonic is Dr. Pierce's Golden Medical Discovery. It promptly puts a worked out man into condition, because it starts at the right place. It begins by restoring the lost appetite. It corrects all disorders of the digestion and makes the assimilation of the food perfect. It invigorates the liver. It purifies the blood and fills it with the life-giving elements of the food. It is the great blood-maker and flesh-builder. By enriching the blood it nourishes and builds up every organ and tissue in the body. No man ever broke down with nervous exhaustion or prostration who resorted to this great medicine when he felt himself threatened by ill-health.

An honest dealer will not urge a substitute. There is nothing in the world "just as good," although avaricious druggists will sometimes say so for the sake of the greater profit to be made upon the inferior article.

Keep your head up and your bowels open. The "Golden Medical Discovery" will put steel in your backbone, and Dr. Pierce's Pleasant Pellets will cure constipation.

PEOPLE AND THINGS.

Senor Sagasta is a civil engineer by profession, and entered public life in Spain as a Republican, being one of the most vehement opponents of Queen Isabella II.

And yet another of the famous Light Brigade that charged at Balaklava has died. He was David Granthaur of Sandhurst, England. His funeral was attended by a number of other survivors of that charge.

An "Arab Napoleon" has risen in Africa. His name is Rabah, and he recently invaded the Foulah empire of Sokoto. At first he suffered a serious reverse, but finally emerged victorious from the struggle and captured Kano, the great metropolis of the Western Soudan, where he now reigns supreme.

The Sir Walter Scott Memorial association, through whose efforts a bust of Scott was placed and recently unveiled in Westminster abbey, desires to present a replica of it to the Boston public library, and the secretray of the association, Richard Lees, has communicated the desire of the association to Ambassador Hay.

The task of writing the biography of Gladstone will probably fall to the lot of John Morley. The material for the work will be practically inexhaustible, as Mr. Gladstone preserved all correspondence and made copies of all his own important letters. The missives from the Queen alone number over 500.

Captain on Luis Cadarso, commander of the Spanish warship Reina Cristina, who was killed in the battle of Manilla, was one of the best officers in the Spanish navy. He had been in command of the Reina Cristina for the past three years. His signature was well known in Spanish papers and reviews. He wrote chiefly on naval and colonial matters.

Senor du Bosc presented Spain's side of the case to a large public audience in Toronto, with such effect that Senor Tejada of the New York Junta was sent to the same place to tell the true story. He, too, made a great impression, but when, at the close of the meeting, a vote of thanks was moved, Rev. C. O. Johnson took occasion to score Du Bosc for playing golf on Sunday. This precipitated a heated discussion, in which Tejada, the war, and all else were forgotten.

THE BRIGHT SIDE.

Agreeing in Disagreement—Wickwire—How men will disagree! Now, there is my wife's prohibitionist uncle, who says the putting water through a process of distilling is a profanation, almost.

Yabsley—I'll bet your uncle from Kentucky doesn't think that way.

Wickwire—No; he says it is an insult to the distilling apparatus.—Indianapolis Journal.

She Got Mad—

"Who is the belle to-night?" asked she,
As they stood on the ballroom floor.
He looked around the room to see—
And she speaks to him no more.
—Harlem Life.

Encouragement—He (feeling his way)—I—I wish we were good friends enough for you to—to call me by my first name.

She—(helping him along)—Oh, your last name is good enough for me.—New York Weekly.

No Danger—"I would worry less about Henpeck going to war," said his fond mother, "if he could speak Spanish. It might save his life sometime."

"Don't worry about him," snaped Mrs. Henpeck. "He'll never get near enough to the Spaniards to talk to them."—Detroit Free Press.

Uncle Tommers—"I met a Southerner yesterday, who insisted that 'Uncle Tom's Cabin' brought on the war."

"Well, some of the companies I have seen in the play were quite sufficient to provoke hostilities."—Puck.

An Awful Possibility—Marie—Don't cry, dear. You must be brave while Jack is away with the army. Remember, the war will soon be over, and then he will return to you.

Penelope—Yes; but I am afraid that before he comes back some other hateful man will marry me.—New York Evening Journal.

Proof Positive—Quizzer—What makes you think the inventor of the tandem was a woman?

Guyer—Man is placed in the background.—New York World.

A LITTLE OF EVERYTHING.

The United States paid $15,000 for the cable notice to Napoleon III to keep out of Mexico.

A colored presbyter declared in a public jeestimg that the church was so high that you could not climb over her, so broad that you could not get around her, and so low that you could not crawl under her.

Governor Wolcott of Massachusetts is the first Governor in the United States to commission negroes as officers in the army.

"I have been told by sculptors," said the pretty man, "that I have a matchless head." "And there's about as much use to it as a headless match," said the large, knotty man.

"Your husband will save money if you don't go to the seashore." "No, he won't. I'm going to have our piazzas all done over with red, white and blue awnings, benches and chairs."

Switzerland, although she spends only $500,000 yearly on her army, can turn out 100,000 trained men in two days in case of need, and has a reserve of 100,000 more, as well as a militia of 270,000.

It is noted that the Philippines were discovered in 1521 and formally annexed to Spain in 1569, nearly 330 years ago. In those 330 years of Spanish rule but sixteen miles of railway have been built in the entire archipelago. That is characteristic of Spain's way of ruling her provinces.

A Breslau bookkeeper has just been fined on the ground that "by placing a tasteless and offensive wooden fence along one of the finest parts of the roadway he did wound the esthetic feelings of the public," contrary to a statute book against "grober unfug," or gross nuisance.

One of the uses for which balloons may be employed is the investigation of the sea bottom. It has been found by aeronauts that frequently the bottom is clearly visible from a balloon through the water. This fact has recently been made use of to recover a torpedo boat which had been lost off Toulon.

An Indianapolis paper is responsible for the story that in Horace Greeley's height of fame teachers applying for positions in the schools of a Western town were asked, "Who is the editor of the New York Tribune?" Of the 211 young women who grappled with the question, nineteen answered "Charles Dickens." The story is told by a woman who conducted the examination.

Buffalo Bill has been giving his advice about the purchase of horses for the United States cavalry. "Dun colored horses are not the prettiest by any means, but my experience has been," he says, "that they are the toughest of the horse kingdom. An ordinary dun horse will wear out three other horses. Put as much work on him as you may, he never looks as well or as tidy in appearance as a bay, chestnut, black, gray or white, but as far as service is concerned he will run the others to a standstill. This is my experience on the plains, in the cavalry service, and is my experience in the show business, where I have nearly 500 horses. Dun horses are somewhat rare, but when they can be picked up I would advise that they be bought, especially when the question of wear and tear is considered."

Tom L. Johnson of Ohio is a millionaire, and he is frank enough to tell how he came to be so rich. He says: "What the world needs is not charity, but justice. I shall refuse the same as ever to issue checks for charitable institutions, and I shall not bequeath money for building churches and libraries. My family shall be well provided for, but the balance of my wealth shall serve to teach the people how to prevent me and others of my kind from robbing them. As long as any person is permitted by the monopolization of natural resources and private ownership of public utilities to accumulate wealth that does not belong to him, just so long will people of my kind be willing to commit such theft. It is my task to open the eyes of the people to the process whereby they foolishly permit themselves to be robbed, and point out to them the way to abolish a system which enriches me and impoverishes themselves."

THAT'S SO.

A well bread sandwich makes both ends meat in the middle.

There is no known substance harder than the diamond—to get.

When a woman says no she expects a man to coax her to say yes.

Every race is a sure thing, but the majority of men bet the wrong way.

Every girl has her own exclusive idea of what a perfect man should be.

A woman will forgive a man anything but the fact that he doesn't admire her.

When a man becomes sadder and wiser his sadness usually exceeds his wisdom.

The small fish that escapes usually figures in the foundation of a big story.

Sober second thoughts are often accompanied by a dark brown taste and a headache.

It is the circumstances of men over which she has no control that is responsible for the old maid.

No young man who tells a girl that eating ice cream has a tendency to enlarge the mouth will make a good husband.

Railway corporations are not altogether soulless when they only allow ten minutes for refreshments at a railway lunch counter.—Chicago News.

A SHINING LIGHT.

They say when Dewey went to school
He was a wicked boy;
That as a rule it pleased him to employ
Himself in bending pins
And throwing paper wads
And planning other sins;
And now, ye gods!
He stands sublime,
Will spend his time
In imitating Dewey, and
Imagining that they alone
Who only fool
Around at school
May win applause when they are grown!
Ah, why did Dewey's teacher tell
This sorry truth?
Why did he cast this evil spell
Upon our youth?
Why didn't glorious Dewey lead his class?
Alas! Alas!

TROTTERS MEET AT EMERYVILLE.

Reliance Club Alone Retains Its Activity For the Summer.

THE UMPIRE.

The Oakland baseball boys seem to be playing under an ill-fated horoscope. Their work has been phenomenal, and the last two games were lost through sheer hard luck and nothing else. The games were both any body's from first to last, but the opponents seemed to be more fortunate in their bunching of hits. If the team keeps up its present pace, it will in the end appear among the list of the victors.

The press, bicycle riders and general public should strongly advocate obedience to the ordinance requiring the use of bicycle lamps in all communities. While bicyclists have oftentimes objected to the passing of ordinances compelling them to carry lighted lamps at night, yet it is a fact that after such provisions have become a law and after the riders have experienced the great advantage accruing and the largely increased safety, they would be unwilling to abandon either the lamps or the law. Bicyclists having a proper regard for their own safety and that of others will never be on dark roads without a light. It serves as a necessary danger signal, guarding against the sudden, torpedo-like approach of unseen vehicles and pedestrians, as well as enables the rider to avoid the discomforts of a rough road.

It is not enough that the law should be respected when it requires the use of lighted lamps at night, but for the personal safety of every rider, he should protect others from the probability of accident by givingian illuminated warning of his nearing in the dark.

Eddie Bald was the peer of all the fast racing men that met in the New York State circuit race meet just held under the auspices of the Albany Bicycle Club. In addition to winning the mile open and mile handicap professional races, he made an exhibition mile in 2:00 flat. Those who expected to witness the rise of a new champion this season, must be content to wait another year, at least.

Ruhlin and Sharkey will meet tomorrow evening in a contest of twenty-five rounds before the New York Athletic Club. Speculators are enshrouded in mist as to the result. While gamblers are adhering to the sailor in the ratio of two to one, there are many clear-headed sports who predict that Ruhlin will win the decision on points.

They argue that the latter's straight left-hand jabs will drive Sharkey wild and force him to commit many fouls, at his own ultimate peril. It would not surprise thousands if the wires conveyed the intelligence of Sharkey's early downfall by reason of foul fighting and police interference.

Lovers of the old-time trotting dashes have had a splendid treat at the Emeryville track the last week. Not only by reason of the excellent entries, but because of the system which has made the races so popular. The single heats are a notable improvement over the long-drawn-out triple heats that caused so much delay.

Schmeer's name is being clarioned throughout the State in recompense for his excellent playing at San Jose last Sunday. The little shortstop is a dashing player who works for his team's glory, rather than for an individual record. He takes risky chances, but after all, spectators enjoy such a player more than another who fears the accumulation of errors.

The Intercollegiate boat race which terminated in an easy victory for Cornell, established that institution as the aquatic champion of the college world. Harvard seems to be outclassed of recent years, and simply enters the races to add more glory to the victory of her sister universities.

The Sacramento wheel meet on the Fourth is attracting widespread attention throughout the State. The grand celebration billed for Oakland on that day will tend to decrease the attendance at Sacramento from this city.

THE UMPIRE.

BOXING.

The Manhattan Club's regular monthly entertainment will take place on Thursday night in San Francisco. There will be several limited "goes," of which the most interesting will probably be between Lon Agnew of the Reliance Club and Fred Muller. Agnew, who is training at Alameda, thinks he will defeat Moller in four rounds. He expects to strip at about 150 pounds, while Moller, he declares, will not be able to carry over 138 pounds. The club also reports that Jimmy Anthony is in fine condition for his bout.

Tommy Warren, the old-time feather-weight champion, is in Philadelphia, looking for a match with any 118-pound man.

Oscar Gardner and Sammy Kelly have been matched to meet in a twenty-round bout at the Lenox Athletic Club in San Francisco on Friday evening, July 23d. Kelly will find Gardner a tougher nut to crack than Sullivan, for as Gardner has defeated every boxer he has met during the last nine months, he has established himself on a par with his prospective opponent. Gardner certainly has the battle of his life before him.

Marty Matthews, who fought a twenty-round draw at Coney Island with "Kid" McPartland, has posted a forfeit of $250 for a match with Jack Everhart.

The Mechanics Athletic Club of San Francisco which was organized several months ago, and refused a boxing permit by the Board of Supervisors, is bent upon having amusement of another nature. It has arranged for a ball at B'nai B'rith Hall on Saturday evening, July 23d.

CYCLING.

The California Cycling Club held an interesting run last Sunday. The boys crossed on the 8 o'clock Broad Gauge boat and passed through this city en route to Walnut Creek.

Not a chainless wheel is seen upon the American tracks. Old-time riders who have adopted the chainless say that the pedal motion is exactly like that of the ancient ordinary.

Jimmy Michael, the cycling wonder, has taken up training quarters at Waltham, Massachusetts, where he is gathering a crack team. He has been working harder than usual for his season, which will open, at Montreal July 1st, unless he race Eddie McDuffie before that date. This race will be fifteen miles.

Joseph Sierer, a wheeling tourist who went around the border of the United States, encountered during his trip three discouraging classes of humanity, girls tramps and Indians, and he is wondering which was the worst. The Indians made him buy drinks, the tramps held him up and the girls stole all of his ribbons.

BASEBALL.

The game of the County League played by the Alameda Alerts and the Grand Rule Bazaars at Elmhurst Sunday was as clean a game as any one could wish to see. So interesting was it, in fact, that not one person left the stand during the game and some of the clever plays were liberally applauded.

There can be no question as to the sport furnished by our local teams, and it will not be many weeks before their contests will be attracting the attention of the entire State.

A movement is on foot to organize a team or two of soldiers from the camps on this side of the bay, and take them into the league. This is an excellent idea, as there are a number of good players in the regiment who are anxious for an opportunity to get into the game.

Next Sunday the Alerts will meet the Westovers in their first game of the tournament. "Billy" Peters will catch for the Westovers, and a number of his stand-bys will be with him so the boys from across the marsh will have a game on their hands.

All soldiers in uniform will be admitted free to the Elmhurst grounds hereafter. The round trip rate has been reduced which will help to increase the attendance.

The Oakland team has had a losing streak for the last few days, and it will have to brace up and get in the race again.

The Oakland boys were in second place, but they took a drop and are now about fourth.

They have been playing in hard luck, losing the games by a very small margin. Sunday at San Jose they were beaten in what was perhaps the best game played in the League this season.

In the ninth inning with the score 2 to 0 against them and three men on bases and only one out, they could not make a hit to tie the score.

They are billed to go up against the Athletics next Sunday and Monday when they will try and redeem themselves by defeating their opponents both games.

Every one should see these games, as they are both good teams and the games will be hotly contested.

RELIANCE CLUB.

Last Sunday the Reliance Wheelmen held three races out at Berkeley. Wyman won the quarter mile, Brereton the half mile and Coxhead the one mile handicap.

The Reliance Light Battery held drills last Thursday and Monday evenings. Over forty drilled both nights, and the boys are making rapid progress. Quite a number have drilled before, and they help the other boys out.

Captain Deacon, Rosenheim, Valentine and Evans are in fine condition for the races at Sacramento on the Fourth. Deacon and Rosenheim have entered the tandem race, and should come pretty well toward the front. Valentine and Evans are new men, this being their first appearance at an open meet. Both are strong riders, and should give a good account of themselves.

A swimming annex has been formed at the club. The boys patronize Piedmont Baths on Friday nights.

Charles Summers has received a letter from Charles Griffiths, who is on the City of Peking. He says Burrell, Smith, Neylan and himself are having a fine trip and that they were treated royally at Honolulu. Charles Gooch, one of the Reliance Club crack riders, has joined the engineer corps. He sailed for Manila with the last transports. The boys saw Charlie off and gave him a send-off before he boarded the vessel.

W. M. Ward, second lieutenant of the wheelmen, has left for Los Angeles, where he expects to remain for two months.

A very clever show is given every class night by the bar performers and acrobats.

The Gun Club will hold a shoot at the Webster street grounds next Sunday. There will be a coursing match, double bird match and other matches during the day.

Colonel Wood of Roosevelt's Rough Riders is well known by a number of the Reliance boys. He played football on the coast for a while, and some of the football men who played with him say that if he fights as well as he plays football, he is a match for two or three dozen Spaniards.

Most of the boys will spend the Fourth in Oakland. Quite a number would have gone to Sacramento, but when they found out that Oakland was going to have such a swell show they decided to remain at home and yell for the boys in blue.

Pop Jerome's genial face is missed from the club rooms these days. He has taken a home in San Mateo for the summer, and it will take another "old man's run" to get him with us again.

The class nights still attract large crowds, and the professors are turning out some fine athletes. The boys always have quite a number of spectators who seem to enjoy the work hugely.

MISCELLANEOUS.

Two drivers were tossed from their seats by collision in the first race at the California Jockey Club course yesterday. Soon after passing the half-mile pole, J. Thompson, the driver of Primrose, was run into and thrown to the ground. He was not badly injured. Then Walter Maiben was thrown from Palo's sulky. His arm was broken.

Fred Beckwith, ex-champion professional swimmer of England, died from apoplexy at Uttringham, England, the other day. He was 78 years old.

By order of the Czar, Arabian horses and their descendants have been excluded from imperial purses, but this applies only to direct descendants of foreign horses of the first or second generation.

Presidio soldiers are participating in some interesting aquatic sport at Sutro Baths. Every Sunday boys from the various regiments meet in the tanks and contest at dashes and long diving matches.

The Oakland Golf Club is holding competitions of various kinds every Saturday with a view to increasing the interest in the game and to perfect the play of the members. First there was a contest in driving for both ladies and gentlemen, and Miss Marguerite Jolliffe and James McKee won in their respective classes. Last Saturday the novelty was a putting contest. This was won by Miss Bell Mhoon and W. P. Johnson. The method of play was to put the ball from four different distances from the hole and figure up an average.

Next Friday tennis men will cross rackets in their annual struggle for the Coast championship in singles. Sam Hardy, Sumner Hardy, Robert Whitney, R. Nicholson, George Bradshaw, Robert Holmes, Allen Bowen, Dr. Root, Earl Stone, and R. Hunt, are all in line for championship honors.

Delegates to the Pacific Inter-Club Yacht Association assembled in the Merchants' Exchange Rooms, San Francisco, last evening. Among those present were: President Tisdale, H. M. Landsberger and J. S. Handley of the Encinal Yacht Club, Secretary L'Hommedieu and E. N. Walter of the California Yacht Club, and A. J. Young and J. H. Hopps of the Corinthian Yacht Club.

A silver cup was presented to the Association by Herbert E. Law, which will be given as a special prize for small yachts in the regatta of September 9th. This will probably bring about considerable rivalry between the owners of Idler, Myth, Weewun, Caprice, Topsy, Dionis, Venture, and other boats of the mosquito fleet. Another cup was offered by the members of the Association to be known as the "Delegates' Cup," as a further incentive to active racing interests, and an effort will be made to establish the cup as an annual feature, the prize to be contributed by the delegates from each club annually.

The third annual cruise of the Association will be made July 23; rendezvous at Vallejo Sunday, July 3d. Last year about fifty yachts, flying different flags, were at Vallejo for the annual reunion. It is believed the number will be exceeded next Sunday.

The second day's racing at the meeting of the Pacific Coast Trotting Horse Breeders' Association was largely attended yesterday.

But one favorite crossed the tape first during the entire day. Dictatress won the first race. Followed by the favorite I Direct which took third. The second race was a "cinch" for William Baker. He was in the van at all points. In the third George Washington was true to his country and reached home five lengths ahead of Hijo de Diablo. Rect captured the fifth race in straight heats.

The following are the entries for this afternoon:

2:22 class; trotting; one mile dash; purse $200— Carrie C., Doctor T., Daymont, Melvar, Little Miss, Ned Thorne, Diana, Brigadier and Pilot Prince.

2:27 class; trotting; one mile dash; purse $200—Maud P., Anna Belle, Lou, Nellie Ely, J. W. Albert, Winella, Mabel McKinney and Pilot McKinnon.

Special for members of Golden Gate Driving Club; mile heats; 2 in 3; purse $100—Chloe, Butcher Boy, Ashton, Bishop Hero, Carrie C. and Peanuts.

2:26 class; pacing; one mile dash; purse, $200—Resort, Dandy Pat, Peanuts, Blackstone, Majella, Mark H., William Harold, Primrose, Roderick, Dictatress and Rex Alto.

Special race, 2:40 class; pacing; one mile dash—Peanuts, Charles David, Lindo, Harry Ramon and Polo.

Budd Spared Not Himself.

Suit has been brought against Governor Budd and the other directors of the San Joaquin Valley Agricultural Association for $6,000. Had the Governor not pocketed the bill appropriating State aid for agricultural fairs, the indebtedness would not exist. Those who signed the note with Governor Budd were Louis Gerlach M. A. Moore, Senator B. F. Langford, J. A. Shepherd, R. W. Russell and the late Senator L. U. Shippee. All save the last are made co-defendants with the Chief Executive.

Information Wanted.

Mayor Thomas has received a letter from Mrs. Pamela Davezoe of 509 Dauphine street, New Orleans, asking for information concerning her sister Mrs. Jean Marie Delhom or her daughter, Rosalie Delhom. The last letter Mrs. Davezoe received from her sister was written April 29th, 1885, at which time Mrs. Delhom lived at 764 Sixth street this city.

MAGNIFICENT HOSPITAL SHIP IS THE RELIEF.

Our Stricken Soldiers Will be Tenderly Cared For.

Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, June 29.—What is undoubtedly the finest hospital ship in the world will steam out of New York harbor next Thursday and proceed to Santiago de Cuba. She is the Relief, the pride of the War Department. The Solace, Uncle Sam's other hospital ship, belongs to the Navy Department and is on duty in Cuban waters.

For more than a month the Relief has been receiving the attention of carpenters, machinists, plumbers, electricians and medical or surgical experts at the Morgan Iron Works. Saturday she floated out of dry-dock, and with a few more finishing touches, inside and out, she will be ready to sail.

The Relief, with her splendid lines, her massive steel frame and her modern engines, more than answers every demand from the view point of a ship proper, and from that of the physician and surgeon she is a dream.

Imagine a ship of this kind divided up into five large wards for the sick and wounded, into store rooms and mess rooms, operating rooms and officers' quarters, fitted with every appliance known to modern medical or surgical science, including all known instruments likely to be required in surgical operations; two complete X-ray outfits, a microscopic laboratory, perfect facilities for photographing, and with electrical power everywhere, running the lights and hundreds of fans scattered throughout, the airy whose zephyrs will make the wounded sailor or soldier forget that he is not in his northern home, instead of off torrid Cuba.

The ship will be loaded with the greatest cargo of nice things that any similar vessel ever carried. Hundreds of patriotic women all over the Eastern States have heard of Dr. Torney and his ship, and the result has been contributions of money and luxuries and delicacies, until the pantries and store rooms of the floating hospital now fairly creak with the load of them.

In the way of purely medical stores, Dr. Torney has taken pains to supply everything. He last week sent on board several hundred cases of medicinal stores, which he described as "pills and powders." The special plants have been provided which will add infinitely to the comfort of the sick. They are the distilling plant, the ice or refrigerating plant and the plant for carbonizing water, the gift of the Colonial Dames.

The first two will be indispensable in the South in furnishing a plentiful supply of pure and cold water, and the carbonizing plant will make the water more drinkable.

The wards are models in their way. The walls are painted white, the floors covered with rubber tiling and the beds of iron enameled in white.

Bath rooms abound. They are connected with all the wards, with all the private quarters of the medical staff and with those of the ship's officers. There is a special shower bath which would be the making of any bath house on land. It is for sick officers, and is so arranged that the shower throws hot or cold, fresh or salt water. All the bath rooms have rubber floors.

For hoisting or lowering the sick or wounded, Naval Constructor Francis T. Bowles has devised a special apparatus. On the forward side of the main-mast he has fitted a steam boom. By its use patients can be taken from a warship and placed on any deck of the Relief or to any ward desired.

WATER RATES WILL NOT BE RAISED NOW.

Companies Decide to do Business Under the Old Ordinance.

As stated in the Tribune a week ago, the water companies will not collect rates under the terms of the ordinance which takes effect July 1st.

A few days ago President Dingee of the Oakland Water Company said that his patrons would have no cause for dissatisfaction after July 1st, which remark implied that there would be no change from existing rates.

Yesterday J. H. T. Watkinson of the Contra Water Company said that the directors had decided not to enforce the new legal rates, but to collect under the old ones. "The company is convinced," said Mr. Watkinson, "that times are hard and people are not able to pay high rates. Many people are out of employment and many businesses are not making money. The wave of prosperity has not yet struck California, and when it comes people will be able to pay a little more for water than they can pay now."

Pringle, $5; Chas. D. Haven, $5; L. A. Booth, $2.50.

It is expected by the committee that the merchants and property owners will respond more than liberally to the call of the committee. The many attractions to be presented will make a day of benefit to Oakland that will be long remembered and which will be of great benefit especially to its business interests the effects of which will be far reaching.

WILL MEET TONIGHT.

All the sub-committees of the Fourth of July celebration, and all citizens who wish to be present will meet at 8 o'clock this evening at the rooms of the Board of Trade.

COLUMBIA OF 1898.

Arise, noble sons of Columbias' fair daughters,
And spread out your sails o'er the Ocean's blue waters,
Invade yonder islands that groan 'neath oppression,
Destroy all its strongholds, repeal its aggression,
Strike off the chains from the poor bleeding nations,
And free those who have been long suffering in patience.
Your banners raise high,
Let them glare in the sky,
Make Columbia the Hope of the world.

Ye who inveigh this fair land of the freeman,
And aim to prevent her soldiers and seamen
From planting their standards on forts they have entered,
From standing and staying on ground that surrendered,
Beware of Columbia's sinews and muscles!
To shake you and choke you in titanic tussels.
She is kindly and mild
To her friends, like a child,
But a terror to tyrants and foes.

So God speed you warriors for freedom's sweet blessing;
Stand firm by your flag, though grim hosts may be pressing,
And have it against its aggressors unfurled,
Your thunders, well aimed, in their breaking ranks hurled
And have you accomplished your sacred endeavor,
Your country will cheer you and thank you forever.
Then give her thy name
And loudly proclaim
Columbia the Star of the world.

SPANISH TROOPS ARE MARCHING ON SANTIAGO

WASHINGTON, June 29.—General Shafter has reported two more important developments in the military situation at Santiago. First, he expects to take the city as soon as he gets ready to move, and will not wait for reinforcements. Second, that the Spanish reinforcements, numbering 8,000, accompanied by pack trains and large droves of animals, are advancing from Manzanillo to the relief of Santiago and are now fifty-four miles from that city. A number of dispatches have been received from General Shafter covering all the details of the present situation. Some of them are to the Secretary of War, others to Major-General Miles. They cover substantially the same ground.

It is evidently General Shafter's purpose not to wait for the reinforcements now going forward to him, but to make his attack before the 8,000 troops approaching from the west can reach the city. The statement that they are now but fifty-four miles from Santiago is the most definite information thus far received. It is about 100 miles from Manzanillo to Santiago, so that the Spanish forces have covered about one-half the distance at the time they were located by the American officers. This probably was a day or two ago for General Shafter's dispatch was sent last night, and in the meantime the Spaniards undoubtedly have advanced considerably further.

SPANISH DRIVING IN CATTLE.

The droves of cattle which the Spanish army is bringing along shows a purpose to lay in ample fresh meat in anticipation of a siege. This and the pack train hamper a rapid advance, but even with a bad road the Spaniards probably will make from ten to twenty miles a day. Much reliance had been placed on General Garcia's Cubans to prevent this advance of reinforcements from the left. But it appears that Garcia's entire force has been withdrawn from the left and is now with General Shafter's main body. General Shafter also reports the details of this transfer of Garcia's forces. He says the transfer from Acuraderos covered fifty miles and that 3,000 of Garcia's troops were landed on the right of the harbor, making in all over 4,000 Cubans concentrated with the American troops on the right of the city.

UNFORTUNATE MOVE.

He does not mention specifically whether any Cubans are on the left, but the inference is plain from his detailed report, that most, if not all, of them accompanied Garcia in the transfers. This move was doubtless made before word had reached General Shafter that the Spanish reinforcements were fifty-four miles to the left of Santiago, else it is felt that General Garcia's forces would have been kept on the left to hamper the advance of the Spaniards and if possible to hold them back. Whether this can be done now is problematic. From the fact that General Shafter reports that he will take the city as soon as he can get ready to move without waiting until reinforcements reach him, it is evident he wishes to strike the blow before there is time for the Spanish troops from Manzanillo to reach the city.

General Shafter's various dispatches also contain much information on other features of the military situation. He expresses the warmest thanks for the congratulations sent to him by the President, through Secretary Alger, and those of Commanding General Miles, though he modestly refers to the recent affair in which the rough riders and cavalrymen participated as unimportant. He says only 246 of our men were engaged, but it was very decisive in our favor, the army retreating precipitately. General Shafter says that the lack of cavalry was all that prevented the capture of the Spanish forces. He expressed the deepest regret at the loss of so many of our brave men. In a vein of ridicule he refers to reports reaching him from Santiago that the American troops were beaten and that the Spaniards retired only because the "Americans persisted in fighting."

SHAFTER NEEDS HORSES.

General Shafter emphasizes the need of horses, in particular he wants horses for the Third Battalion, for the First Cavalry and Colonel Woods' rough riders. He says the horses he carried on the expedition stood the voyage well.

ARTILLERY ALL LANDED.

One of the most satisfactory points reported by General Shafter is that the last of the artillery has landed. This means a great deal, as it was feared the loss of the lighter would seriously delay the landing of the heavy artillery. He does not specify that heavy guns as well as the light artillery were landed, but his statement that the last of the artillery was landed yesterday is taken to cover all of the ordnance.

With these siege guns on shore, General Shafter is now in a position to support a troop of cavalry with the big guns of the heavy artillery as well as the light field guns. It appears also from the reports that the last of the troops were not landed until yesterday, this occurring simultaneously with the landing of the artillery and the transfer of the Cubans. It was practically the last move in concluding the preparations for actual land operations. General Shafter's dispatches speak of the spirits of the troops as being good and their health is excellent. They bring out also that the commander is not less in high spirits than his men, for he concludes one of his dispatches with the laconic sentence that he hopes to send favorable reports soon.

A DISPATCH FROM SHAFTER RECEIVED.

The Tribune's Special Leased Wire.

WASHINGTON, June 29.—The War Department has posted the following bulletin:

"PLAYA DEL ESTE, June 29.—Hon. Russell A. Alger, Secretary of War: Off Siboney June 27. The graves of the dead are marked so that there will be no mistake in identification. The health of the command is reported to me by the surgeons as remarkable, outside of wounded. There are today less than 150 men sick. So far no wounded have died and but two men of disease since leaving Tampa.

(Signed) "SHAFTER,
"Major-General Commanding."

The War Department also gives out the following cable correspondence:

"WAR DEPARTMENT, Washington, June 25.—Major-General Shafter commanding, etc: The President desires me to send his thanks to you and your army for the gallant action of yesterday, which I gladly do.

"R. A. ALGER,
"Secretary of War."

"BAIQUIRI, Cuba, June 26.—Hon Secretary of War, Washington: Sincerest thanks to the President for his congratulations.

WHY THE MERRIMAC'S MEN WERE NOT EXCHANGED.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

NEW YORK, June 29.—A dispatch to the World from Madrid says:

The Spanish Government and Captain General Blanco are equally disposed to exchange the Merrimac prisoners; in fact an authorization to exchange them was telegraphed to General Blanco, but the Havana and Madrid newspapers made a row over it, affecting to believe that it would be very dangerous to liberate men who have been close enough to the defenses of Santiago to be in a position to carry back information. Accordingly, after some hesitation, the Government insisted upon General Blanco, General Linares and Admiral Cervera refusing to exchange, although all three were in favor of an exchange.

According to Spanish advices, Lieutenant Hobson and the other prisoners were confined only a short time in Morro Fort, and then were transferred to a vessel in the bay. They are believed to be safe as long as Linares and Cervera can control the situation.

The Spanish regulars are sure to respect the rights of prisoners. The only danger is from the volunteers. Members of the old Spanish party are exasperated by the downfall of the old regime.

The arrival of Admiral Camara's fleet in the Suez canal on the way to the Philippines tends to confirm the belief that something is brewing in Germany and Austria to assist Spain when the fleet shall have asserted the existence of Spanish sovereignty in the principal islands of each archipelago outside of Manila, which Camara has been instructed to visit rapidly.

The War Minister and the military authorities again advocated that the fleet be called back in case America sends a squadron here, but Sagasta invoked considerations international and dynastic to send it on.

DEWEY'S DISPATCH.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

WASHINGTON, June 29.—The Navy Department today made public the following cablegram:

"CAVITE.—No change in the situation since my telegram of June 15th. Five German, three British, one French and one Japanese men-of-war in port. The insurgents have been closing in on the city. Aguinaldo, the insurgent leader, with thirteen of his staff, arrived May 19th, with my permission, on the Nanshan. He has established himself at Cavite, outside the arsenal, and our guns are protecting the arsenal. He has invariably conducted the war humanely. My relations with him are cordial, but my conferences have been only of a personal nature."

The cablegram of course come from Admiral Dewey, but it was neither dated nor signed as given out.

AT CAMP THOMAS.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

CHICKAMAUGA NATIONAL MILITARY PARK, June 29.—The order issued yesterday conveying the information that the entire First Army Corps would be sent to Cuba has doubled the activity at Camp Thomas. The work of completely equipping and arming the twenty-seven regiments is an immense task for the short time in which it must be accomplished, but the work is already in progress, and officials say things will be in shape sooner than is generally thought possible. Everybody in the twenty-seven regiments, from colonels to privates, is hustling today and considerable rivalry to be the first to get in shape is in evidence. It is believed that all under orders will be moving inside of two weeks. The Western and Atlantic and Southern railroad officials have received no order from the War Department to supply cars for the moving troops from Chickamauga to Tampa or some other Southern seaport. The only thing of this sort is a notice from the War Department to the local Western and Atlantic officials stating that the troops would doubtless be moved soon and suggesting that they make preparations to furnish a large number of cars when the proper time arrives.

Brigadier-General Howard Carroll and Major Moore, representing the Governor of New York, are in the New York camps inspecting the rations. They talked with the commissary officials and privates and are thoroughly convinced that Uncle Sam is taking good care of his soldiers.

Colonel Wilder of the Fourteenth New York has received permission for his regiment to engage in target practice.

Brigadier-General Waites, formerly of Texas, has assumed command of the Second Brigade of the Third Division, First Army Corps relieving Colonel Pew, commander of the Ninth Massachusetts. When the commander assumed formal charge of the brigade, Colonel Pew returned to the Eighth, relieving Lieutenant-Colonel Bailey.

According to orders received, the Twelfth New York is restored to the Second Brigade, Third Division, under the brigade command of General Waites. This regiment is transferred to the Second Division, so that it might be among the regiments to move under the orders received by the First Division and First and Second Brigades of the First Corps. The entire corps now goes and the regiment can assume its old place.

The Y. M. C. A. have now twenty tents and fifty men at work in Camp Thomas. The average daily attendance at each tent is over 1,000. During the past week over a thousand men have professed religion in the meetings held by Rev. Torrey and other workers.

NO COAL FOR CAMARA.

Associated Press Dispatches by
The Tribune's Special Leased Wire.

CAIRO, Egypt, June 29.—Admiral Camara has asked permission to coal his fleet at Port Said, but the Egyptian government, believing it has sufficient coal to steam to the nearest port, has definitely refused the request, in accordance with the neutrality laws.

C. H. REDINGTON SUES A. H. BREED.

C. H. Redington has brought suit against A. H. Breed to recover a judgment for $5,623 with interest and costs.

The complaint alleges that on May 8, 1893, E. C. Session contracted with A. H. Breed to convey to Charles H. Frost, block No. 86 Highland Park. The contract called for the payment of $22,500 to Sessions and he in turn was to take a first mortgage of $12,500 and a second of $10,000. This contract was later assigned to the plaintiff in this action.

FATHER LOCATES HIS CHILDREN IN SAN LEANDRO

A Chase of Two Years Throughout North America.

After two years of persistent search through the United States and Mexico, and after sixteen days of seclusion in a private room of San Francisco, Joel Hunt, a millionaire stock raiser and miner of Wyoming and Nebraska, has at last located his children and divorced wife in San Francisco.

The divorce decree was obtained by the father two years ago. The children were awarded to the wife. She married an ex-convict of the Wyoming penitentiary and fled to Denver.

The father hearing of her action proceeded to secure the children upon a writ of habeas corpus, but his wife was alert, and anticipated this measure. Then began one of the most remarkable searches that was ever instituted.

For two years the father, with the aid of Pinkerton detectives, trailed the fugitive woman. They followed her to Mexico, and there, failing to find her, the father invoked the Mexican national authorities to locate the woman. Their attempts also were futile.

Sixteen days ago Mr. Hunt located the children in San Leandro, and since that time he has kept in seclusion, until papers could arrive from the East. They are living there under the name of Josie, Eva and Kittie Hurt.

Judge Ogden today issued an order for the children to appear in court tomorrow.

To prevent the mother evading to appear, the court has ordered a Deputy Sheriff to guard the house.

Gavin McNab and Milton J. Greene are attorneys for the father.

ASSESSOR'S Notice to Taxpayers!

ALSO POLL TAX NOTICE.

Oakland, March 7th, 1898.

All Persons, Firms, Companies, Corporations and Associations are required to deliver at the Assessor's office, at the Court House, City of Oakland, County of Alameda, on or before March 31st, 1898, a statement under oath, of all the property, both real and personal, owned or claimed by him, her or them, or in their possession or held in trust for others, at 12 o'clock meridian on the

First Monday of March, 1898,

In accordance with Sec. 3629, Political Code.

Every person who refuses or neglects to furnish the statement as provided for in Section 3629, Political Code, becomes liable to a fine of one hundred dollars and the value fixed by the Assessor on their property must not be reduced by the Board of Equalization.

All persons owning real estate that has been assessed in the wrong name or street have appeared on their tax bills, are requested to call at the Assessor's office or notify the Assessor by mail on or before March 31st, 1898, so that the proper corrections may be made on the assessment roll for the year 1898.

Assessment blanks may be obtained at the Assessor's office, room one, Court House, or from any Deputy Assessor.

Poll Tax Must Be Paid on Demand.

Notice is hereby given that the State Poll Tax of two dollars for the year 1898 is now due and payable at my office, Room one, Court House, or to a Deputy Assessor.

Sec. 3539 of the Political Code reads as follows:

Every male inhabitant of the State over twenty-one and under sixty years of age, except paupers, insane persons and Indians, must annually pay a Poll Tax of two dollars, provided the same be paid between the

First Monday in March and the First Monday in July,

then it shall be three dollars.

Sec. 3846 of the Political Code makes it the duty of the Assessor to "demand Poll Tax of every person liable therefor, and on the neglect or refusal of such person to pay, he must collect by seizure and sale of any personal property owned by such person."

Under Sections 429 to 435 every person who refuses to give his own name or the name of any person in his employ, or who in any manner obstructs the Assessor or any of his deputies in the collection of the State Poll Tax, is guilty of a misdemeanor, and liable to a fine of $500 or imprisonment in the County Jail, or both such fine and imprisonment.

Only those persons under twenty-one or over sixty years of age are exempt. Poll tax must be paid on demand.

Notice to Voters.

REGISTRATION.

Office of the County Clerk of Alameda County, Cal.

Notice is hereby given that all citizens whose names are not now on the Great Register of Alameda county are requested to register in order to be entitled to vote at the next general election in November, 1898.

That owing to failure of the Governor to approve the act unanimously passed by both branches of the last Legislature providing assistance for Clerk it is necessary to begin registration at an early date in order to satisfactorily attend to registration.

That voters who have since the date of the last general election taken up their residence in Alameda county, and those who since that date have removed from precinct in which their name appears on Great Register, must make affidavit in order to have their names placed on Register of precinct in which they now reside.

That it is NOT necessary for voters who registered for the general election of 1896 and whose names appear on the Great Register of 1896 to again make affidavit for registration UNLESS SINCE THE DATE OF LAST REGISTRATION THEY HAVE CHANGED THEIR PLACE OF RESIDENCE.

That registration will continue to and including August 9th, 1898, after which it will cease.

Attention is called to the provisions of Section 1083, which provides that those who shall have been a resident of the State ONE YEAR next preceding the election, and of the county in which they claim their vote NINETY DAYS, and in the election precinct THIRTY DAYS" are entitled to registration.

Further notice is hereby given that affidavit for registration or transfer may be sworn to before any Deputy County Clerk in the different towns and precincts of the county, or before any Deputy County Assessor, without charge.

Affidavits can also be sworn to before any Justice of the Peace or Notary Public.

Notice is given that after the filing of affidavits, OTHER THAN FOR THE PURPOSES OF TRANSFER, when names are ENTERED on Great Register, postal cards will be sent giving date of entry. If postal is not received, voters should ascertain the reason why.

The office of the County Clerk in the Hall of Records will be, until further notice, open for registration from 9 A. M. to 5 P. M. of each day.

Dated April 4, 1898.

RUSHING WORK ON COMMODORE WATSON'S FLEET.

Sampson is Ordered to Have His Ships Ready.

The Oregon and Iowa Will Hurl Shot Into Cadiz.

SPAIN WILL LEARN WHAT WAR IS.

Hampton Roads is to be the Supply Station for the Porto Rican Blockade.

Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, June 29.—A special to the Tribune from Washington says: The War and Navy Departments, by their marked increase in activity, give great evidence of the aggressive efforts to be immediately exerted against Spain, growing out of the decision reached by the administration that a termination of the war can only be secured by bringing home the discomforts as well as the horrors of conflict to the greatest number of Spanish subjects in the shortest time. The wide extension of the Cuban blockade; the announced intention of hurrying 25,000 additional soldiers into Cuba; the proclaimed closure of San Juan de Porto Rico, together with the decision to dispatch Commodore Watson's powerful fleet to European waters, gave a new impetus to the energy displayed at military and naval headquarters, resulting in rush and bustle which had not been equalled since the week in April that was made historical by the President's ultimatum, the proclamation of the Cuban blockade, the first call for volunteers, and the actual beginning of hostilities.

The naval authorities are manifesting the liveliest anxiety to expedite the departure of Commodore Watson's raiding squadron from Santiago, and urgent dispatches were sent to Admiral Sampson to-day to have the Iowa and the Oregon fully coaled and equipped to report for their new duty before the end of the present week. By that time the Newark, the auxiliary cruisers Yankee, Dixie and Yosemite, and the three colliers, Scandis, Alexander and Abarenda, will probably assemble north of Porto Rico, when a straight course for the Canaries will be pursued. The naval refrigerator ship Supply, loaded with fresh meat and vegetables, will immediately set out for the rendezvous, in order that the sailors of the fleet may be well fed on their long trans-Atlantic voyage.

The Department is also arranging to send some fast colliers across the ocean to meet the fleet in the vicinity of Gibraltar about the middle of July. It is considered conclusive that the main object of the squadron is to inflict punishment on the important city of Cadiz, beginning with the bombardment of its chain of forts at sunrise some morning by the Iowa and the Oregon, and the destruction of parts of the city by shelling after twenty-four hours' notice has been given, the idea being, by the creation of enormous material damage, to show Spain the terrible earnestness of the United States. The city of Cadiz is advantageously located from an American point of view, for operations of this character, its chief public buildings and valuable naval establishment being easily within range of the guns of the two United States battleships and those of the Newark. The auxiliary cruisers Yankee, Dixie and Yosemite are relied on in this engagement to prevent torpedo boats from approaching too near the battleships, and in this work they may be assisted by the rapid fire guns already mounted on the colliers.

It is the intention of the Department to retain the three monitors in position off Havana, Cienfuegos and perhaps Trinidad, supported by a number of the smaller auxiliary cruisers as scouts, while the fast yachts and light-draught vessels watch the Isle of Pines, Batabano, and Manzanillo, where the water is particularly shallow. Outside of this inner blockade line, powerful cruisers will constantly patrol up and down the coast, seldom out of signalling distance of each other and the scouts in shore, and it is inconceivable that any assistance in the way of ammunition or food supplies will be able to slip through this double cordon and be safely landed.

The chief efforts of the Navy Department are just now concentrated in the direction of providing an efficient system of supplying water, food, fuel and ammunition to the blockaders, which is a problem of greater magnitude than anything in this line heretofore attempted. The difficulties are considerably augmented, so far as the Porto Rican blockade is concerned, by its great distance from the nearest American base, and as the resources of Key West are apt to be severely taxed in caring for the Cuban blockading fleet, it is proposed to use Hampton Roads as a supply station for the Porto Rican operations.

LAW GOVERNING EXTRA OFFICERS.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, June 29.—Adjutant-General Corbin has written the following letter to Governor Dyer of Rhode Island, concerning a question which has aroused very general inquiry:

"In reply to your letter requesting authority to appoint an additional Major for the First Regiment of Rhode Island volunteers, now stationed at Camp Alger, Virginia, I have the honor to invite your attention to the specific provision in Section 6 of the act of April 22, 1898, which provides for raising a volunteer army as follows:

"'Provided further that when the members of any company, troop, battery, battalion or regiment of the organized militia of any State shall enlist in the volunteer army in a body, as such company, troop, battery, and battalion officers in service with the militia organization thus enlisting may be appointed by the Governors of the States and Territories and shall, when so appointed, be officers of the corresponding grades in the same organization when it shall have been received into service of the United States as a part of the volunteer army.'

"Section 3 of the Act of April 26, 1898, authorizes to 'accept the quotas of the States and Territories, in companies, troops, and batteries, each to contain, as far as practicable, the number of men in this Act from each arm of the service, and regiments of not less than ten or more than twelve such companies.'

"It is held that under these laws, volunteer regiments of the States to be entitled to a third Major, battalion Adjutants or any extra officers not allowed in the regular army organizations must have been organized as a militia organized under the State laws and have entered the United States' service as a body with its officers as so recognized.' It may be added that this is not only a question of organization, but also a question of pay, and it is pretty certain that the accounting officers of the Treasury Department will not pass the pay accounts of an extra officer admitted to the United States service contrary to the express provisions of the law, even if the muster-in of such officers shall be authorized by the War Department. It is not seen, therefore, how, under the law, a third Major can be now commissioned and mustered into the First Regiments of Rhode Island volunteers."

BLOODSHED IN A SHAM BATTLE.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, June 29.—Blood was spilled at Camp Alger yesterday. During a sham battle Harvey Reed of Company B, Sixth Massachusetts, was shot in the head with a blank cartridge at close range. He lost part of one ear and it is feared his eyesight is permanently injured.

An exciting encounter between two brigades occurred yesterday a few miles from the camp. The Second Brigade was returning from its march to the Potomac when it encountered a column on the road composed of the First Rhode Island, Third Missouri and Second Tennessee. The Second Tennessee refused to give way so that the Second Brigade might pass, and finally charged the brigade with fixed bayonets. Two or three men were slightly injured.

A Little Too Sober.

An interesting decision was handed down in an appeal to the Supreme Court yesterday. S. A. Gilmore was convicted in Tuolumne county of burglary in the first degree and sentenced to four years' imprisonment. An appeal was taken, the point being raised that the defendant was "crazy drunk" the night of the burglary and that he was not responsible for his acts. The Supreme Court points to that section of the Code which refuses excuse for voluntary intoxication, and says the defendant made a confession to the officers and entered into details, the morning after the robbery, of where the stolen property could be found, "which no person in a condition of maudlin drunkenness or irresponsibility would have been at all likely to remember." The judgment is affirmed.

Le Roi Gold Mine Not Sold.

Associated Press Dispatches by The Tribune's Special Leased Wire.

PORTLAND, Or., June 28.—A special to the Oregonian from Spokane, Washington, says: At Rossland, British Columbia, tonight the deal for the purchase of the Le Roi gold mine by the British-American Corporation for $3,000,000 was declared off and the $500,000 check as a first payment was withdrawn.

DEWEY SAVES THE SPANIARD FROM MURDER.

Captain of a Gunboat Owes His Life to the Admiral.

Associated Press Dispatches by The Tribune's Special Leased Wire.

PORT TOWNSEND, Wash., June 29.—According to advices brought from Japan by the steamship Columbia, which arrived here last night, considerable indignation prevails among American sailors and officers of the fleet at Manila over the treatment of the Captain of the Spanish gunboat Callao, which sailed into Manila bay about a week after battle and was captured by Dewey's fleet. The Spaniards claim he showed cowardice in not returning the fire of the Americans. After giving him a Spanish court martial he was sentenced to be shot, but Admiral Dewey came to his rescue and took him under the protection of the American Government.

Hundreds of people in Manila are using every effort to leave, and are offering $500 and $600 for transportation out. As the time draws near for the arrival of the United States soldiers, they are becoming more restless. Another source of anxiety is, in the case of the bombardment of Manila, what the Spaniards will do with their women and children, as they cannot be sent to the interior, as they would become the prey of the rebels. It is stated that an appeal will be made to the British Consul to make arrangements for their removal in case of bombardment. Since leaving Mirs bay on April 27th, the American fleet has been unable to obtain fresh provisions, and the men have been living on salt fare. Notwithstanding this, there is no sickness among the crews, and all are patiently awaiting for orders to take possession of Manila. The Spanish soldiers are anxious to meet the American troops in battle. They are well armed with Mauser rifles, and Captain General Augusti says every one will fight with desperation to maintain the honor of Spain.

A Japanese newspaper contains an account of the adventures, with rebels and Spaniards, of Mr. Vincent, an American superintending a petroleum well on the island of Cebu. Mrs. Vincent was taken captive by the rebels and taken to their headquarters on the outskirts of Cebu, where he was condemned to death. While awaiting execution a Spanish war vessel steamed into the harbor and commenced to bombard the place. The insurgents speedily decamped, leaving their prisoner in the room. Shell after shell came crashing through the walls, carrying away most of the building. When the bombardment ceased a large number of rebels returned, having the blood-stained upper half of a priest's head in a basket. The head was placed on a table, and Vincent was given to understand he would soon fare a similar fate. He was surrounded by rebels with drawn knives. Before the command of execution was given he succeeded in making them understand he was an American and not a Spaniard. The Chief ordered his life spared.

In the meantime the Spanish soldiers attacked the place from the rear, and the rebels attempted to escape. The Spanish force rounded together some 200 natives, many of whom were young boys and were indulging in an indiscriminate slaughter. Ignorant at the time of what was transpiring within a few score yards of him, Mr. Vincent could hear the cries and prayers of the helpless natives amidst the roar of musketry. After a while the fire slackened, and all was quiet except a few occasional shots which sounded the death knell of those among the natives who had escaped the volleys poured into their midst. About 3 o'clock the next morning Mr. Vincent crept out of the ruined building and succeeded in getting aboard of the British steamer Gulf of Martaban, which had a number of Philippine refugees bound for Singapore.

THE MOTORMAN WAS RECKLESS.

Important Ruling of Judge Hunt in a Damage Case.

Judge Hunt of San Francisco has decided that the Market Street Railroad is not entitled to a new trial in the case of William M. Lee, who was awarded $5,000 damages by a jury. The court says:

"The evidence shows that the motorman made no effort whatever to slacken the speed or stop the car when it approached the plaintiff, although warned by a passenger of the impending danger. It must or should have been apparent to the motorman before the collision took place that the plaintiff, in a careless and inattentive way, was about to cross the railroad track in front of the approaching car, in ignorance of its approach. Yet, while the motorman knew, or should have known those facts, he made no attempt to avert injury to the plaintiff until he had been run down by the car and almost fatally injured. Such conduct fairly indicates wantonness and recklessness on the part of the motorman, or it at least indicates failure on his part to exercise an ordinary degree of care to prevent the injury which the plaintiff received. When one is crossing or attempting to cross a railroad track under such circumstances as renders it doubtful to the motorman on the approaching car whether he can accomplish his purpose or not, the motorman is not justified in proceeding in his course without making at least some effort to stop the car, up to the point of collision."

SPAIN'S BLUFF IS LAUGHED AT BY THE ENGLISH.

Camara's Pitiful Play to the Gallery Derided.

Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, June 29.—A dispatch to the Tribune from London says:

Admiral Camara's voyage to Port Said has been regarded by naval experts here as a theatrical device for inducing Spanish people to believe that the Madrid government is not torpid, but is capable of doing something. They have considered it incredible that he should have serious intentions of going to Manila, where he could only arrive without coal and unprepared to meet Dewey with a fleet well supplied and heavily reinforced from San Francisco. The only theory on which so foolhardy a plan could be explained would be a secret intrigue between Germany and Spain by which their fleets might act together, and this supposition exceeds the bounds of credibility, mysterious as the German Emperor's ulterior purpose in the Philippines may be. The prompt announcement from Washington that an American fleet is preparing to sail for Spain is regarded in naval circles here as a convenient pretext for the recall of Camara's squadron to home waters after a grotesque naval promenade through the Mediterranean.

The question whether Camara will be allowed to pass through the Suez canal is eagerly discussed here. There is nothing in the canal convention or international law that stands in his way, and the tolls, while heavy, can be paid to the Suez Company by financial arrangements in Paris. Yet Lord Cromer could undoubtedly prevent the passage of the fleet if he was ordered to do it from London. There would be various methods of harrassing Camara and obstructing the progress of his squadron, for Lord Cromer's will is supreme in Egypt. The vessels could be detained there if the London government were to suggest the propriety of such action, but it is impossible for any one in London to find out whether the American government really wants to have Camara's fleet stopped, and unless that fact be established he may go on to Manila through the canal if he desires to do so.

The feeling among naval men here is that the American Government would do better to interpose no obstacles to his progress, since if he perseveres he will run short of coal, break down on the way and be in no condition for fighting Dewey. Meanwhile the American fleet will be at liberty to set out for Spanish ports and bring the war to a close. There is no evidence that the Foreign Office has received any intimation that the American Government wants to have the Spanish fleet stopped. At any rate, Camara can only have enough coal to take him back to Cartagena. His manoeuvers are not regarded here with seriousness, but are pronounced an unexpected bit of comical byplay in the drama of war.

What promotes more reflection here is the production of artificial interest of various kinds for justifying the meddlesome activity of the German Admiral at Manila by the discovery of some effective substitute for the murdered missionaries who were so useful at Kiao Chou.

The stoppage of Camara's fleet would be an awkward precedent if the Americans themselves should want to use the Suez canal. The British government will undoubtedly be pleased if no pressure be brought to bear upon it for retarding the passage of the squadron, and if it be left at liberty to enforce neutrality by ordinary methods.

The British government has been useful to America in many ways during the present war, but it has not given Spain any cause of offense and has been steadily promoting England's ulterior policies in any future naval war. It has rendered it more difficult than ever before for any belligerent to obtain coal in neutral ports. That is to the British interest; it will not likely use its control over Egypt in such a way as to close the Suez canal against war vessels. A canal open to all fleets and flags is another British interest.

RECEPTION TO REV. DR. COYLE.

One of the heartiest receptions ever given in this city was given to Dr. and Mrs. Coyle last night, by his own people, upon their return from their late tour in the East. The chapel was finely decorated for the occasion. Dr. Webster, chairman of the reception committee appointed by the Pastor's League, presided. Miss Gertrude Hibbard played a violin solo, Mr. Rowlands sang a solo, and Mrs. Turner also favored. Each number was enthusiastically encored, Mrs. Turner responding with another song.

Ben Clarke, choir master, and Mr. Rowlands sang together "Excelsior," with very good effect. Mr. Collins, president of the Pastor's League, gave the address of welcome, and Dr. Coyle responded for himself and wife, thanking his people very cordially for the warm and enthusiastic welcome home they were giving them.

After the song "Excelsior" Dr. Coyle gave to the choir one of the best tributes of praise they ever received. He said that during his tour in the East he had visited some of the largest congregations in Chicago, Detroit, Milwaukee and other places, but that he had not yet heard any singing that would compare with the choir of this church in fullness of tone and in expression and spirit.

FIFTEEN YEARS IN ALAMEDA COUNTY.

Silver Jubilee of Father Carraher of St. Francis Church.

The twenty-fifth anniversary of the admission to the priesthood of Rev. Father Carraher was celebrated yesterday at St. Francis Church across the bay.

An eloquent sermon on the subject of the priesthood of Father Carraher and the good accomplished by his long life in it was delivered by the Rev. Father Lagan of San Rafael. Archbishop Riordan, who occupied a seat of state on an improvised throne in the sanctuary, delivered a short address, on the same theme, in which he reviewed the life of the faithful disciple of the Savior, congratulating him on the success of his mission and the good work accomplished in that section of the city under his immediate control.

A banquet was served in St. Francis' Hall after the mass. The walls of the assembly room were covered with American flags, and over the stage, in silver letters, were the figures and words, "1873—Caed Mille Failthe—1898." At each plate was a souvenir card, the front of which was embossed in silver with the monogram of Father Carraher.

Archbishop Riordan occupied the head of the table. At his right sat Father Carraher, Father Lagan, Father Callahan and Father Flood, and on his right were Father Prelato, Father Serda and Father Phillips. The other clergymen present were:

Fathers Wyman of the Paulists' Church, Lyon of St. Peter's, Cull of St. Francis de Sales, Oakland; Scanlon of Dixon, Crowley o fthe Youths' Directory, Maximillian of the Franciscan Fathers, McNaboe, Connelly of St. Paul's, Dempsey of St. Mary's, McGinty, Flood and McQuade of the Sacred Heart, Prelato and Hickey of St. Ignatius, the Superintendent of the Salesian Fathers, Louis L. Serda of Temescal, Augustine and Seraphin of the Franciscans, Cummings of St. Charles', McKiernan of Suisun, McSweeny, Gannon, Brady of St. John's, Casey, Connolly of Mission Dolores, Power of Livermore, Cottle, Byrne and Ryan of St. Bridd's, Gleason and Nugent of St. Rose's, Nugent of St. Brendan's, O'Mahaney, Pius Murphy of the Dominican, McKenna, Quill of Sonoma, Roma of Notre Dame des Victories, and Brother Ermiold of the Sacred Heart College.

Twenty-five years ago Father Carraher was ordained to the priesthood in Dublin. He came to this coast, and was made assistant pastor of St. Francis', a position he filled for five years. He went to St. Joseph's Church for a short time, and afterward to the Mission Dolores. From there he was appointed pastor of the Mission San Jose in Alameda county, where he remained fifteen years. Two years ago he was transferred to St. Francis' Church as pastor.

ROETH BRINGS UP THE WATER QUESTION.

Introduces a Resolution to Stop Using Harwood Creek Supply.

The Supervisors held a short session yesterday afternoon.

Supervisor Roeth introduced the following resolution relative to the troubles over Harwood Creek:

"Whereas, There appears to be a question whether the exclusive right to use the water of Harwood Creek is owned by any party or parties; therefore

"Resolved, That the Supervisors from the Fourth District be directed to discontinue using the waters of said creek for sprinkling purposes and be it further

"Resolved, That all action heretofore taken by this Board concerning the ownership of the waters of said Harwood Creek, in particular a certain resolution recorded in Volume 22 of Supervisors' Minutes of this county on Pages 19, 20, 21 be rescinded."

The motion was received in silence until Mitchell arose and objected to its passage on the grounds that this was a matter that could easily be laid over until W. W. Foote as representative of the property owners could be present.

The motion received no second and then Roeth naively explained why he had introduced the resolution.

"There is an attempt to make this a personal matter," said he, "and I would like this resolution to go down as a matter of record."

No one made any attempt to uphold Roeth in his explanation and the matter was quietly dropped.

The drug contracts were awarded to J. Tobriner and Osgood Brothers, the latter having the lower bid in most cases.

Stationery contracts were awarded to E. P. Taylor, M. S. Smith & Sons, and I. Tobriner respectively.

The grocery contract was awarded to the New York Tea Company, J. Herrscher, H. Olsson & Company, each securing those articles on which the had bid the lowest.

A resolution was adopted authorizing the chairman of the Board to sign the contracts and to approve bonds.

The Board adjourned until July 5th.

Racing to Beat the Tea Duty.

Associated Press Dispatches by The Tribune's Special Leased Wire.

PORT TOWNSEND, Wash., June 29.—The Northern Pacific liner Columbia arrived to-night, fourteen days from Kobe, Japan, with a large cargo of tea. From the time she sailed all speed possible was made in order to reach the United States before the duty of 10 cents per pound on tea went into effect. It is estimated that the duty on her cargo will exceed $400,000.

DOLPHIN DOES GOOD WORK AT GUANTANAMO.

The Gunboat Proves to Be a Terror to the Spaniards.

How She Protected the Camp of the Marines at Night.

CLEARS THE HARBOR OF MINES.

The Reckless Courage of the Cubans Excites the Admiration of Americans.

(Copyrighted 1898 by Associated Press.)

KEY WEST, Fla., June 29.—A vessel that has just arrived here from Guantanamo, where she left Sunday noon, brought one of the officers of the United States gunboat Dolphin, who is returning home on sick leave. The officer in question says the Dolphin has been co-operating with the marines in Guantanamo harbor, though lately matters have been quiet there.

When he left on Sunday there were twenty-four ships in the harbor, including fighting vessels, colliers, the hospital ship Solace, and the Red Cross Society's steamer State of Texas, with Miss Clara Barton. It was the prevalent belief that Santiago de Cuba would be taken before July 1st, as the American troops were only five miles distant from the city and closing in. An excellent water supply had been obtained on the shore at Guantanamo, where there were 600 Cubans in addition to those of the American marines.

The passage leading to the inner harbor, the officer reports, was thoroughly cleaned of mines by launches from the Dolphin and other ships. Eight mines, weighing 180 pounds each, were taken up and sent to New York, where they will be cleaned before they are put into use in American waters.

The Spanish troops at Caimanera and other points on the inner harbor are cut off from Santiago and are starving. They may be captured at pleasure. The Texas and the Marblehead have already destroyed the forts at the inner end of the passage, and our ships may enter the inner harbor and shell Caimanera whenever they are ready.

The Dolphin took a conspicuous part in the bombardment of Santiago on June 6th. After the principal firing she went toward the shore and fired shells into a train approaching the city with soldiers. With the glasses it could be seen that the train was wrecked and the men were scrambling into the woods. The insurgents afterward reported that seventy men and eleven women were killed.

At Guantanamo the Dolphin protected the camp of marines at night, casting her searchlight into the woods occupied by the Spaniards and shelling their positions with three-inch schrapnel guns. Throughout the fighting on both sides of the bay the Dolphin raked the Spanish shelters.

Her most notable achievement was on June 14th, when the marines made an offensive movement and captured the well. Our troops moved upon the Spaniards, with the Cubans in front and on their flanks as scouts. Wherever the Spaniards could be seen the Dolphin threw shells among them. When they made their last stand, the marines wig-wagged to the Dolphin "shell the house." The Dolphin could see no house except one she had previously hit and which she knew was empty. She fired at random up the little valley, and a shell, tearing through the trees, entered a house hidden among them. The Spaniards poured out like ants from a hill, and the Cubans and marines picked off eighty-eight. The shell killed seven.

In some cases the ships could only judge of the skill of their gunners by observing the volunteers gathering about spots where shots had been aimed. The Spanish dead were in many cases left unburied.

Everybody, the Dolphin's officer says, is enthusiastic in praise of the Cubans, who are utterly without fear and are unwilling to retire when ordered to stop fighting. The fortitude of wounded Cubans is described as remarkable.

WANTS A NEW GUN FOR PATROLMEN.

Chief Fletcher Recommends the Adoption of a Uniform Weapon.

Chief of Police Fletcher will, at the next meeting of the Police Commissioners, recommend that a revolver of some particular style and calibre be adopted for the use of the Police Department. At present the patrolmen use any make of weapon they may find convenient without regard to calibre. Until recently the same order prevailed in the San Francisco department but there has been a change and now all members of the force carry the regulation revolver.

A Patriotic Celebration

All citizens of Alameda and Contra Costa Co.'s are earnestly requested to participate in the

GRAND PATRIOTIC . . . CELEBRATION

TO BE HELD AT OAKLAND

July 4, 1898

Never in the history of the city has such a splendid program been arranged, and it will be a day long to be remembered by those who attend.

PARADE

In the morning there will be an immense military and civic parade, in which 2400 U. S. troops will take part.

SHAM BATTLE

In the afternoon the 2400 U. S. troops will deploy on Adams' Point and engage in a Sham Battle, during which 50,000 rounds of blank cartridges will be fired. It will be a most realistic sight and will last an hour and a half.

FIREWORKS

In the evening a grand display of Fireworks will be made on Lake Merritt, to conclude with the

Bombardment of Morro Castle by a Monitor.

The castle will be finally blown up as a grand spectacular finale.

Everybody come and help make this a grand success.

By request of

THE COMMITTEE.
